Bringing you potentially greater earnings and a better way to trade.

Phillip Cash Management Account (PCMA) is an **enhanced trading account** that allows you to trade shares, unit trusts, ETFs, treasury bills and other investment products.

Achieve maximum performance with the funds you allocate for investment by placing them in PCMA!

1. Custody of Shares

For all shares traded on the SGX through the PCMA, the Central Depository Pte Ltd ("the CDP") will be the share depository. Shares purchased will be deposited in the account holder's Global Securities Account (GSA) with the CDP.

Traded foreign shares will be held in custody with Phillip Securities Pte Ltd on terms as set out in the Conditions Governing Phillip Securities Trading Accounts (Terms and Conditions).

2. Trading

Share trading can be done through POEMS Internet, POEMS Mobile (WAP/GPRS), Telebroker as well as via your Trading Representative.

Excess Funds Management

When you opt for PCMA's excess funds management feature, you authorize Phillip

Securities to invest your surplus funds on a discretionary basis in Money Market Funds.

Presently, clients' excess SGD funds are placed in the Phillip Money Market Fund and excess USD funds are invested in the Phillip USD Money Market Fund. For more information on these two funds, please visit

<http://www.phillipcapitalmanagement.com.sg>

The minimum amount of placement in the money market fund (MMF) each time per client is \$100 and the minimum redemption amount is \$10. However, should the invested amount in the MMF fall below \$100, the amount in the respective currency will be automatically and fully redeemed. For example, if a client has USD90 and SGD110, his SGD will remain invested in the MMF but his USD will be automatically and fully redeemed.

Equivalent dollar value of MMF units will be automatically redeemed at no extra charge for settlement of contracts or for withdrawal. For the settlement of the shares you buy, redemption of MMF units will take place automatically on contract due date+1. Similarly, excess cash arising from sales proceeds will be designated for placement in MMF by 2pm on the same business day.

With regard to Money Market Funds (MMFs), **investors should note** that:

- a. MMFs are unit trusts that invest in short-term deposits and high quality debt securities. Both local and foreign issuers may issue permissible debt securities;
- b. Although the fund managers may seek to maintain or preserve the principal value of the MMFs, there can be no assurance that the funds will be able to meet their objectives;
- c. MMFs are **not principal guaranteed** unit trusts in that there is no guarantee as to the amount of capital invested and/or return received;

d. Past performance figures as well as any projection or forecast regarding the MMFs are not necessarily indicative of the future or likely performance of such funds;

e. A purchase of a unit in MMFs is not the same as placing funds on deposit with a bank or deposit-taking company. Investments are subject to investment risks including the possible loss of the principal amount invested;

f. Unlike bank deposits, MMFs do not pay interest. Investors enjoy returns from the MMFs in the form of capital gains, which are generally not taxable under the current Singapore income tax laws;

g. The value of units in MMFs and the income from them may rise as well as fall;

h. For the MMFs invested through PCMA, an annual management fee of 0.5% of the net asset value is built into the unit price. Phillip Securities earns a trailer fee of 0.3% p.a. from fund managers (out of the 0.5% annual management fee).

i. The Money Market Funds are not intended for US citizens.

j. Clients may wish to seek advice from a financial adviser before opening this account. In the event that client chooses not to seek advice from a financial adviser, he/she should consider whether this account is suitable for him/her.
