Excess Funds Management

When you opt for excess funds management facility, you authorize Phillip Securities to invest your surplus funds on a discretionary basis in Money Market Funds.

Currently, clients' excess SGD funds are placed in the Phillip Money Market Fund and excess USD funds are invested in the Phillip USD Money Market Fund (Phillip US Dollar Money Market Fund). Please visit www.poems.com.sg/unittrust under Tools >> Fund Finder for more information on these two funds or ask your trading representative or customer servicing staff for the Factsheet.

The minimum amount of placement in MMF each time per client is \$100 and the minimum redemption amount is \$10. However, when the MMF unit balance falls below 50 upon redemption, balance units will be automatically and fully redeemed.

Equivalent dollar value of MMF units will be automatically redeemed at no extra charge for settlement of contracts or for withdrawal. For the settlement of the shares you buy, redemption of MMF units will take place automatically on contract due date+1. Similarly, excess cash arising from sales proceeds will be designated for placement in MMF on the same business day.

With regard to Money Market Funds (MMFs), **investors should note** that:

- MMFs are unit trusts that invest in short-term deposits and high quality debt securities. Both local and foreign issuers may issue permissible debt securities;
- Although the fund managers may seek to maintain or preserve the principal value of the MMFs, there can be no assurance that the funds will be able to meet their objectives;
- MMFs are **not principal guaranteed** unit trusts in that there is no guarantee as to the amount of capital invested and/or return received;
- Past performance figures as well as any projection or forecast regarding the MMFs are not necessarily indicative of the future or likely performance of such funds;
- A purchase of a unit in MMFs is not the same as placing funds on deposit with a bank or deposit-

- taking company. Investments are subject to investment risks including the possible loss of the principal amount invested;
- F. Unlike bank deposits, MMFs do not pay interest. Investors enjoy returns from the MMFs in the form of capital gains, which are generally not taxable under the current Singapore income tax laws;
 - G. The value of units in MMFs and the income from them may rise as well as fall;
 - H. For the MMFs invested through excess fund management feature, an annual management fee of 0.45% of the net asset value is built into the unit price. Phillip Securities earns a trailer fee of 0.27% p.a. from fund managers (out of the 0.45% annual management fee).
 - I. The Money Market Funds are not intended for US citizens.
