IMPORTANT NOTICE

1. The provisions above and these notes form part of the terms and conditions for opening and operating your account in addition to our general Conditions Governing Phillip Securities Accounts. In making your application for a Prepaid account, we will be assuming that you **agree** to this. The Conditions Governing Phillip Securities Accounts can be obtained from Phillip Securities Pte Ltd (PSPL) or downloaded from www.poems.com.sg.

2. You are responsible for maintaining adequate funds in the account for settlement of your purchase contracts. Insufficient funds in the account may result in force-selling of overdue purchase contracts.

3. You should ensure that you have sufficient shares to deliver against your sale contracts to avoid a buying-in and penalty by SGX.

4. For online foreign currency-denominated share transactions, you should carefully specify the settlement currency at the point of submitting a trade.

After which, you should ensure that there are sufficient funds in the settlement currency to avoid any force-selling by PSPL. In the event that you have funds in another currency in equivalent value to your deficit in the settlement currency, your shares will not be force-sold but debit balance interest will start to accrue on the settlement currency until you order a currency conversion from the other currency to offset the debit balance in full. You can do a currency conversion through POEMS or by giving instructions to your trading representative. PSPL will **not** do the currency conversion on your behalf without any given instruction from you unless they are items stated under **Auto-conversion of Debit Balance**.

5. PSPL reserves the right to revise the published rates and charges from time to time without prior notice.

6. For account closure with credit balance of S\$1.00 and below, an administrative charge of up to S\$1.07 (inclusive of GST) will be levied.

In the event that PSPL is unable to identify the account for the amount to be credited, PSPL may reject the amount transmitted after reasonable endeavours have been made to trace the source of the deposit. Any bank charges incurred will be borne by you.

PSPL will not be held responsible for any loss, charge or damage arising from the rejected funds or delay in crediting the amount into the account.

8. Please contact your Trading Representative if you need any clarification or assistance on trading matters.

Excess Funds Management

When you opt for the excess funds management facility, you authorize Phillip Securities Pte Ltd to invest your surplus funds on a discretionary basis in Money Market Funds ("MMF").

Currently, clients' excess SGD funds are placed in Phillip Money Market Fund and excess USD funds are invested in the Phillip USD Money Market Fund (Phillip US Dollar Money Market Fund). Please visit www.poems.com.sg/unittrust under Tools >> Fund Finder for more information on these two funds or approach your Trading Representative or customer service staff for the relevant factsheet.

The minimum amount of placement in MMF each time per client is \$100. However, when the MMF unit balance falls below 50 upon redemption, balance units will be automatically and fully redeemed.

Equivalent dollar value of MMF units will be automatically redeemed at no extra charge for settlement of contracts or for withdrawal. For the settlement of the shares you buy, redemption of MMF units will take place automatically on contract due date. Similarly, excess cash arising from sales proceeds will be designated for placement in MMF on the same business day.

With regard to Money Market Funds (MMFs), **investors should note** that:

- A. MMFs are unit trusts that invest in short-term deposits and high quality debt securities. Both local and foreign issuers may issue permissible debt securities;
- B. Although the fund managers may seek to maintain or preserve the principal value of the MMFs, there can be no assurance that the funds will be able to meet their objectives;
- C. MMFs are **not principal guaranteed** unit trusts in that there is no guarantee as to the amount of capital invested and/or return received;
- D. Past performance figures as well as any projection or forecast regarding the MMFs are not necessarily indicative of the future or likely performance of such funds;
- E. A purchase of a unit in MMFs is not the same as placing funds on deposit with a bank or deposit-taking company. Investments are subject to investment risks including the possible loss of the principal amount invested;
- F. Unlike bank deposits, MMFs do not pay interest. Investors enjoy returns from the MMFs in the form of capital gains, which are generally not taxable under the current Singapore income tax laws;
- G. The value of units in MMFs and the income from them may rise as well as fall;
- H. The PhillipCapital group of companies, and in particular PSPL itself, together with their respective directors and employees may take or have taken interests or positions in the MMF which PSPL in providing the excess fund management services with respect your surplus funds, has exercised its discretion to invest such of your surplus funds in. Such companies, including PSPL (but through another business unit other than its fund management department), may also perform or seek to perform

marketing/distribution and other investment services for or in relation to the MMF for which services distinct fees are received. Specifically, PSPL may for such marketing/distribution services rendered receive marketing/distribution fees (including trailer fees) from the MMF originators/fund managers which it will receive and appropriate for its own benefit. Such MMF may include those MMF that PSPL in providing to you its fund management services with respect to your surplus funds invest/subscribe in for you.

- I. The Money Market Funds are not intended for US citizens.
