With the Advisory Unit Trust Wrap account, you will receive professional advice on unit trusts from your Representative who will perform a financial review, propose and tailor-make an investment portfolio according to your needs and desires.

Your Representative is aligned with your interest to grow your investments through his/her personal analysis.

Minimum initial deposit of S$5,000 cash and/or unit trusts is required.

1. Custody of Unit Trusts
All unit trusts deposited or transacted through this account will be held in the custody with Phillip Securities Pte Ltd (PSPL) in trust. Corporate actions, such as dividends, rights subscription will be processed in this account.

Accounts with multi-currency facility will receive the cash dividends in declared currency unless otherwise determined by the issuer/PSPL.

2. FAME 3.0 Online Access
You will be given access to our online platform “FAME 3.0”, where you can approve the transactions that your Representative has put up, view your holdings and retrieve your past transaction records.

3. Regular Savings Plan (RSP)
From as little as $100 per month, you can build up your unit trust portfolio over time in a low cost efficient, steady manner by applying for our regular savings plan.

By investing a fixed amount of funds consistently every month over a period of time, your average cost of unit trust purchased will potentially be lower than the average price of the unit trust over the same period of time. This is a good way to hedge against market volatility.

You can apply for RSP as a single or joint account with another individual. Simply approach your adviser and submit the UT Wrap transaction and RSP Giro forms. Allow your bank one month to process your Giro application.

Money will be deducted from your bank account on the 2nd (or the following business day if the 2nd falls on a public holiday) of each month, and upon successful deduction, it will be used to purchase your unit trust(s) on the 7th of the month (or the following business day, if 7th falls on a public holiday).

Amendment of RSP
You can change the fund(s) or investment amount by completing the RSP amendment form, and submitting it to PSPL at least 10 business days before the investment date

Termination of RSP
If you wish to end your subscription plan, simply complete Section 9 of the UT Wrap transaction form and indicate the fund(s) you wish to terminate and check the “T” box.

* Important note: For RSP termination, at least 30 business days’ notice will be required upon submitting the form to PSPL.

4. Dividend Portfolio
You can also receive regular payment of dividends from dividend paying funds into your bank account. Simply invest a minimum of S$50,000 into a portfolio of dividend paying funds, and you can opt to credit your dividends accumulated in your wrap account during the month, into your bank account at the beginning of the next month.

This portfolio is available for cash investment only

Excess Funds Management
Currently, your excess SGD funds are placed in the Phillip Money Market Fund and excess USD funds are invested in the Phillip USD Money Market Fund (Phillip US Dollar Money Market Fund). Please visit www.poems.com.sg/unittrust under Tools >> Fund Finder for more information on these two funds or ask your trading representative or customer servicing staff for the Factsheet.

The minimum amount of placement in MMF each time per client is $100 and the minimum redemption amount is $10. However, when the MMF unit balance falls below 50 upon redemption, balance units will be automatically and fully redeemed.

Equivalent dollar value of MMF units will be automatically redeemed at no extra charge for settlement of contracts or for withdrawal. For the settlement of the unit trusts you buy, redemption of MMF units will take place automatically on contract due date+1. Similarly, excess cash arising from sales proceeds will be designated for placement in MMF on the same business day.

With regard to Money Market Funds (MMFs), investors should note that:

A. MMFs are unit trusts that invest in short-term deposits and high quality debt securities. Both local and foreign issuers may issue permissible debt securities;

B. Although the fund managers may seek to maintain or preserve the principal value of the MMFs, there can be no assurance that the funds will be able to meet their objectives;

C. MMFs are not principal guaranteed unit trusts in that there is no guarantee as to the amount of capital invested and/or return received;

D. Past performance figures as well as any projection or forecast regarding the MMFs are not necessarily indicative of the future or likely performance of such funds;

E. A purchase of a unit in MMFs is not the same as placing funds on deposit with a bank or deposit-taking company. Investments are subject to investment risks including the possible loss of the principal amount invested;

F. Unlike bank deposits, MMFs do not pay interest. Investors enjoy returns from the MMFs in the form of capital gains, which are generally not taxable under the current Singapore income tax laws;

G. The value of units in MMFs and the income from them may rise as well as fall;

H. For the MMFs invested through excess fund management fee, an annual management fee of 0.45% of the net asset value is built into the unit price. Phillip Securities earns a trailer fee of 0.27% p.a. from fund managers (out of the 0.45% annual management fee).

I. The Money Market Funds are not intended for US citizens and residents.
