IMPORTANT INFORMATION

The collective investment scheme offered in this Prospectus is constituted in Singapore and is an authorised scheme under the SFA. A copy of this Prospectus has been lodged with and registered by the Authority. The Authority assumes no responsibility for the contents of this Prospectus. Registration of this Prospectus with the Authority does not imply that the SFA or any other legal or regulatory requirements have been complied with. The Authority has not, in any way, considered the investment merits of the Sub-Fund.

Our Directors collectively and individually accept full responsibility for the accuracy of information contained in this Prospectus and confirm after making all reasonable enquiries that, to the best of their knowledge and belief, this Prospectus constitutes full and true disclosure of all material facts about the Fund, the listing and quotation of the Units of its Sub-Fund on the SGX-ST and us, and our Directors are not aware of any facts the omission of which would make any statement in this Prospectus misleading. Where information in this Prospectus has been extracted from published or otherwise publicly available sources or obtained from a named source, the sole responsibility of our Directors has been to ensure that such information has been accurately and correctly extracted from those sources and/or reproduced in this Prospectus in its proper form and context.

You should refer to the Deed in conjunction with this Prospectus. Copies of the Deed are available for inspection at our operating office during usual business hours (subject to such reasonable restrictions as we may impose). If you are in any doubt about the contents of this Prospectus or the Deed, you should seek independent professional advice.

An application was made to the SGX-ST on 7 October 2025 for permission to deal in and for quotation of the Units of the UOBAM Ping An FTSE ASEAN Dividend Index ETF which may be issued from time to time. Such permission has been granted by the SGX-ST and the Units have been admitted to the Official List of the SGX-ST. Admission to the Official List of the SGX-ST is not to be taken as an indication of the merits of the Fund, the Sub-Fund, the Units or of the Managers and the SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed in this Prospectus. Units deposited with CDP will be traded on the SGX-ST at market prices throughout the trading day. Market prices for Units may, however, be different from their NAV (as calculated in accordance with the Deed). Any listing and quotation of Units on the SGX-ST does not guarantee a liquid market for the Units.

You should note that the Sub-Fund is not like a conventional unit trust offered to the retail public in Singapore in that the issue and redemption of Units with us may only be made by Designated Market Makers or through Participating Dealers. Participating Dealers must apply to us for the creation and redemption of Units in an Application Unit size or whole number multiples thereof, subject to a minimum. If you submit a subscription or redemption application for less than the current minimum (whether directly or through your stockbroker) to a Participating Dealer, your application will be rejected by that Participating Dealer. The current Application Unit size is 1,000 Units and the current minimum is 50,000 Units (or such higher number of Units in multiples of 1,000 Units) per Creation or Redemption Application as specified in the relevant Annex for a Sub-Fund, or such other minimum number of Units as we may determine from time to time with the approval of the Trustee. Accordingly, if you do not intend to subscribe for at least 50,000 Units, you will only be able to buy or sell your Units on the SGX-ST. This would differ from conventional unit trusts where units can be purchased and realised by investors directly from the managers and in comparatively smaller amounts than the current minimum of 50,000 Units.

You should seek professional advice to ascertain (a) the possible tax consequences, (b) the applicable legal requirements and (c) any foreign exchange restrictions or exchange control requirements which you may encounter under the laws of the country of your citizenship, residence or domicile, which may

be relevant to your subscription, holding or disposal of Units. We make no representation as to the tax status of the Sub-Fund. You should keep yourself informed of, and observe, all such laws and regulations of any relevant jurisdiction that may be applicable to you.

Before investing, you should consider the usual risks of investing and participating in collective investment schemes and the risks of investing in the Sub-Fund which are summarised in this Prospectus. Your investments can be volatile and there is no assurance that the Sub-Fund will be able to attain its objectives. The price of Units as well as income from them may go up as well as down to reflect changes in the value of the Sub-Fund. You should only invest if you can sustain losses on your investment. You should satisfy yourself that investing in the Sub-Fund is suitable based on your personal circumstances.

This Prospectus does not constitute an offer of or solicitation to anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation and may only be used in connection with the offering of Units as contemplated herein.

Units are offered on the basis of the information contained in this Prospectus and the documents referred to in this Prospectus. No person is authorised to give any information or make any representations concerning the Sub-Fund other than as contained in this Prospectus. Any investment made on the basis of information or representations not contained in or inconsistent with the information or representations in this Prospectus will be solely at your risk. This Prospectus may be updated from time to time to reflect material changes and you should check if you have the latest updated Prospectus or if any supplement is available.

We may apply for the Units to be marketed in other jurisdictions.

Prohibition against U.S. investors

Units are being offered and sold outside the United States to persons that are not:

- (i) U.S. Persons (as defined in Regulation S promulgated under the Securities Act of 1933 of the U.S., as amended (the "**U.S. Securities Act**")) in reliance on Regulation S promulgated under the U.S. Securities Act; or
- (ii) "United States persons" (as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code, as amended, and referred to herein as "**U.S. Taxpayers**"). Currently, the term "**U.S. Taxpayer**" includes: a U.S. citizen or resident alien of the "United States" (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organised in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Persons who have lost their U.S. citizenship and who live outside the United States may nonetheless, in some circumstances, be treated as U.S. Taxpayers. Persons who are aliens as to the United States but who have spent 183 days or more in the United States in any of the last two years should check with their tax advisors as to whether they may be considered residents of the United States.

Units are not and may not be offered, made available, sold to or for the account of any U.S. Persons or U.S. Taxpayers. You may be required to declare that you are not a U.S. Taxpayer and that you are neither acquiring Units on behalf of U.S. Taxpayers nor acquiring Units with the intent to sell or transfer them to U.S. Taxpayers.

Foreign Account Tax Compliance Act and the Common Reporting Standard ("CRS")

FATCA

FATCA was enacted in 2010 by the U.S. Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Sub-Fund to U.S. withholding tax on certain types of payments made to the Sub-Fund. Accordingly, it is intended that the Sub-Fund complies with FATCA.

For the purpose of complying with FATCA, we, the Trustee, and/or other service providers of the Sub-Fund may be required to report and disclose information on certain investors in the Sub-Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore¹ in connection with FATCA and/or withhold certain payments to such investors.

CRS

CRS, endorsed by the Organisation for Economic Co-operation and Development and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a "competent authority agreement" ("**CAA**") to the IRAS. Such information may subsequently be exchanged with Singapore's CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

You are required to:

- (a) provide such information, documents and assistance in connection with the above as we and/or the Trustee may require from time to time; and
- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers of the Sub-Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above.

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 15 of this Prospectus.

You may direct your enquiries in relation to the Fund or the Sub-Fund to us or our authorised agents or distributors.

¹ Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore ("**IRAS**"), which will in turn provide the information to the U.S. tax authorities.

3. The Trustee and Custodian

The Trustee is State Street Trust (SG) Limited, a trust company approved by the Authority under Section 289(1) of the SFA to act as a trustee for collective investment schemes authorised under section 286 of the SFA and constituted as unit trusts. The Trustee is regulated in Singapore by the Authority. The Trustee does not have any material conflict of interest with its position as trustee of the Fund. See the Deed for details on the Trustee's role and responsibilities.

The Trustee has appointed State Street Bank and Trust Company ("**SSBT**"), a trust company organised under the laws of the Commonwealth of Massachusetts and, in respect of such appointment, acting through its Singapore Branch, as the global master custodian of the Fund. SSBT was incorporated on 13 April 1891 in the Commonwealth of Massachusetts. As at 31 December 2024, SSBT had an issued and paid up share capital of US\$29,930,920. SSBT will remain as custodian of the Fund until its appointment is terminated in accordance with the terms of its appointment. SSBT was founded in 1792 and is a wholly owned subsidiary of State Street Corporation. It is licensed and regulated by the Federal Reserve Bank of Boston. State Street Bank and Trust Company, Singapore Branch, holds a wholesale bank licence issued by the Authority and is regulated by the Authority.

SSBT provides custodian services in over 100 markets by utilising its local market custody operations and through its network of sub-custodian banks. SSBT will appoint sub-custodians in those markets where the Sub-Fund invests where SSBT does not itself act as the local custodian. SSBT has processes for the initial selection, and ongoing monitoring of its sub-custodians, each of which is chosen based upon a range of factors including securities processing and local market expertise, and must satisfy specific operating requirements in

terms of structure, communications, asset servicing and reporting capabilities. All sub-custodians appointed by SSBT must be licensed and regulated under applicable law to provide custodian and related asset administration services, and carry out relevant related or ancillary financial activities, in the relevant market jurisdiction. SSBT will typically seek to select local branches or affiliates of major global financial institutions that provide sub-custodian services in multiple markets, although unique market service requirements may result in the selection of an entity as sub-custodian that is more local in scope.

Other custodians may be appointed from time to time in respect of the Sub-Fund or any of its assets.

Please refer to paragraph 21.1 for further details of the custodial arrangement in respect of the Deposited Property of the Sub-Fund.

4. The Registrar and Administrator

State Street Bank and Trust Company, acting through its Singapore Branch, has been appointed by the Trustee as the registrar of the Fund and will be responsible for keeping the Register. Any Holder may inspect the Register at 168 Robinson Road, #33-01, Capital Tower, Singapore 068912 during usual business hours (subject to such reasonable restrictions as the registrar may impose).

The Register is conclusive evidence of the number of Units held by each Holder. If there is any discrepancy between the entries in the Register and the details appearing on any statement of holdings, the entries in the Register will prevail unless the Holder proves, to the Trustee's and our satisfaction that the Register is incorrect.

For so long as the Units are listed, quoted and traded on the SGX-ST, we shall appoint CDP as the unit depository for the Sub-Fund. All Units issued and available for trading will be represented by entries in the Register in the name of, and deposited with, CDP as the registered Holder of such Units.

The administrator of the Fund is State Street Bank and Trust Company, acting through its Singapore Branch, which has been appointed by us to provide (i) certain administration and valuation services (including accounting and net asset value calculation) pursuant to the terms of an Administrative Services Agreement, and (ii) certain transfer agency services pursuant to the terms of a Transfer Agency and Services Agreement, each entered into between the administrator of the Fund and us. State Street Bank and Trust Company, acting through its Singapore branch will remain as the administrator of the Fund until its appointment is terminated in accordance with the terms of its appointment.

5. Other Parties

5.1 Auditors

The auditors of the Fund are PricewaterhouseCoopers LLP.

5.2 Market Maker

A market maker is an entity registered by the SGX-ST as a Designated Market Maker to act as such by making a market for the Units in the secondary market on the SGX-ST. A Designated Market Maker's obligations include quoting bid prices to potential sellers and offer

prices to potential buyers when there is a wide spread between the prevailing bid prices and offer prices for Units on the SGX-ST. Designated Market Makers accordingly aim to facilitate the efficient trading of Units by providing liquidity in the secondary market when it is required in accordance with the market making requirements of the SGX-ST. Subject to applicable regulatory requirements, for so long as the Sub-Fund is listed on the SGX-ST, we will ensure that at least one Designated Market Maker is appointed at all times for the Sub-Fund to facilitate efficient trading in the secondary market and provide for an adequately liquid market.

As at the date of this Prospectus, the Designated Market Maker for the Sub-Fund is Phillip Securities Pte Ltd.. Any change to the Designated Market Makers will be announced on the SGXNET and on our website. In addition, an announcement will be released via the SGXNET as soon as practicable if the Designated Market Makers are unable to fulfill their duties of providing an adequately liquid market for the Sub-Fund.

5.3 Participating Dealers

The role of a Participating Dealer is to facilitate the issue, realisation and cancellation of Units in the Sub-Fund from time to time. We intend that other than Designated Market Makers, the Participating Dealers will be the only persons allowed to subscribe for and realise Units directly with us. Therefore, any subscription or realisation of Units by Holders must be made through a Participating Dealer (whether directly or through stockbrokers), unless we allow otherwise.

You may obtain a list of current Participating Dealers from our website at uobam.com.sg.

5.4 Index Provider

The Index Provider of each Sub-Fund is set out in the relevant Annex.

6. Structure of the Sub-Fund

The structure of the Sub-Fund is set out in the relevant Annex, and the information relating to the UOBAM Ping An FTSE ASEAN Dividend Index ETF is set out in Annex 1. The Managers have the discretion to establish different classes of Units (each a “**Class**” and collectively the “**Classes**”) from time to time. The Classes in the Sub-Fund may differ, amongst other things, in terms of the currency of denomination, fee structure, dividend payouts, whether they are each a Distribution Class or an Accumulation Class, hedging policy, creation and redemption settlement cycles, minimum threshold amounts for subscription, holding and realisation, eligibility requirements, the availability of participation in a RSP, etc.

All Classes will constitute the Sub-Fund and are not separate funds. Any expense, income and/or gain which is attributable to a particular Class shall be deducted from or added to (as the case may be) the value of the Sub-Fund which is attributable to that Class.

A separate net asset value per Unit will be calculated for each Class. The net asset value per Unit of each Class will be calculated on each Dealing Day in the currency of the relevant Class. It is calculated based on forward pricing and is determined based on the Value as at the Valuation Point on the relevant Dealing Day on which applications for Units are received, of the proportion of the Deposited Property of the Class represented by 1 Unit and truncated to 4 decimal places (or such other number of decimal places or method of determination or rounding as the Managers may from time to time determine with the approval of the Trustee).

Each Unit represents an undivided share in the Deposited Property or the portion of Deposited Property attributable to the relevant Class. The rights, interests and obligations of Holders are contained in the Deed.

6.1 Base Currency

The base currency of the Sub-Fund and the Class(es) to be offered in the Sub-Fund is set out in the relevant Annex.

6.2 Currency Trading on SGX-ST

The trading currency(ies) of each Sub-Fund is set out in the relevant Annex. Unit holdings of the same Class will be consolidated in investors' CDP accounts so that the total number of Units of such Class can be viewed at a glance.

7. Investment Considerations

7.1 Investment Objective

The investment objective of the Sub-Fund is set out in the relevant Annex.

7.2 Investment Focus and Approach

The investment focus and approach of the Sub-Fund is set out in the relevant Annex.

7.3 Distribution Policy

The distribution policy of the Sub-Fund is set out in the relevant Annex.

7.4 Product Suitability

The product suitability of the Sub-Fund is set out in the relevant Annex.

7.5 Authorised Investments

The authorised investments of the Sub-Fund ("**Authorised Investments**") are any of the following Investments:

- (i) any Quoted Investment;
- (ii) any Unquoted Investment; and
- (iii) any other Investment not covered by paragraphs (i) and (ii) of this definition but approved by the Trustee in writing (such approval not to be unreasonably withheld).

And in the case of a Sub-Fund which Units are Excluded Investment Products, only to the extent allowed under the CMP Regulations for the purposes of classifying Units of the Sub-Fund as an Excluded Investment Product.

Please refer to the Deed for the full meaning of the terms Quoted Investment, Unquoted Investment and Investment.

The Sub-Fund may use or invest in FDIs. Further information is set out in paragraph 7.7 of this Prospectus.

7.6 Investment and borrowing restrictions

The investment and borrowing guidelines issued by the Authority under Appendices 1 and 5 of the Code, which guidelines may be amended from time to time, shall apply to the Sub-Fund save to the extent waived or exempted by the Authority from time to time. In addition, notwithstanding anything contained in this Prospectus, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as Excluded Investment Products.

We currently do not intend to engage in any borrowings, although the Sub-Fund's borrowing powers may, if so required and subject to the Deed and the Code, be exercised to meet redemptions.

Subject to the provisions of the Deed and the Code, the Fund may borrow, on a temporary basis not exceeding one month, for the purposes of meeting redemptions and bridging requirements including, without limitation, enabling the Managers to acquire Authorised Investments for the account of the Sub-Fund or meeting any pre-funding requirements of any Recognised Exchange.

We currently do not intend to carry out securities lending or repurchase transactions in respect of the Sub-Fund, but may in future do so in accordance with the applicable provisions of the Code. In addition, notwithstanding anything contained in this Prospectus, we will not engage in any securities lending transaction or securities repurchase transaction in relation to the Sub-Fund, except where (i) the securities lending transaction or securities repurchase transaction (as the case may be) is carried out for the sole purpose of efficient portfolio management; and (ii) the total value of securities subject to all the securities lending transactions and securities repurchase transactions entered into by us does not exceed 50% of the net asset value of the Sub-Fund at any time, or as may be allowed under the CMP Regulations for the purpose of classifying Units of the Sub-Fund as Excluded Investment Products.

7.7 Risk management procedures

- (a) To the extent allowed under the CMP Regulations for the purpose of classifying Units of the Sub-Fund as Excluded Investment Products, the Sub-Fund may use or invest in FDIs for the purposes of hedging and efficient portfolio management.
- (b) We will ensure that the global exposure of the Sub-Fund to FDIs or embedded FDIs will not exceed 100% of the NAV of the Sub-Fund at all times. Such exposure will be calculated using the commitment approach as described in, and in accordance with the provisions of, the Code.
- (c) Below is a description of risk management and compliance procedures and controls adopted by us:-
 - (i) We will implement various procedures and controls to manage the risk of the assets of the Sub-Fund. Our decision to invest in any particular security or instrument on behalf of the Sub-Fund will be based on our judgment of the benefit of such transactions to the Sub-Fund and will be consistent with the Sub-Fund's investment objective in terms of risk and return.

- (ii) *Execution of Trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions of the Sub-Fund, and that best execution and fair allocation of trades are done. Our Governance and Compliance department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of the Sub-Fund. If there is any non-compliance, our Governance and Compliance department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
- (iii) *Liquidity.* If there are any unexpectedly large redemptions of Units, it is possible that the assets of the Sub-Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid public exchanges or over-the-counter markets. Also, under certain market conditions such as during volatile markets, crisis situations or trading disruptions, it may be difficult or impossible to liquidate or rebalance positions. While we will ensure that a sufficient portion of the Sub-Fund will be in liquid assets such as cash and cash-equivalents to meet expected redemptions (net of new subscriptions), we may in certain situations employ liquidity management tools such as limiting or suspending realisations in accordance with paragraph 13 of this Prospectus. If such tools are employed, you may not be able to realise your Units during any suspension period or the realisation of your Units or payment of the realisation proceeds for your Units may be delayed.
- (iv) *Counterparty Exposure.* The Sub-Fund may have credit exposure to counterparties by virtue of positions in financial instruments (including FDIs) held by the Sub-Fund. To the extent that a counterparty defaults on its obligations and the Sub-Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets, its income stream and incur extra costs associated with the exercise of its financial rights.

Subject to the provisions of the Code, we will restrict our dealings with other counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above BBB by Fitch Inc., a baseline credit assessment of above A3 by Moody's Investors Service, or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the Sub-Fund's position with that counterparty as soon as practicable.

- (v) *Volatility.* To the extent that the Sub-Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case when the investment is made directly into the underlying security, the value of the Sub-Fund's assets will have a higher degree of volatility. The Sub-Fund may use or invest in FDIs for hedging and efficient portfolio management as stated in paragraph (a) above. At the same time, we

will ensure that the total exposure of the Sub-Fund to derivative positions will not exceed the NAV of the Sub-Fund, as stated in paragraph (b) above.

- (vi) *Valuation.* The Sub-Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (d) We will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of the Sub-Fund, but subject always to the requirements under the Code.
- (e) The Sub-Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code.

8. Fees, Charges and Expenses

8.1 Fees and Charges Payable by Investors / Participating Dealers / Designated Market Makers

Fees and Charges Payable by You

The fees and charges payable by you for the Sub-Fund is set out in the relevant Annex.

Fees and Charges Payable by Participating Dealers / Designated Market Makers

The fees and charges payable by Participating Dealers and Designated Market Makers to subscribe for or redeem Units is set out in the relevant Annex.

8.2 Fees and Charges Payable by the Sub-Fund

The fees and charges payable by the Sub-Fund are set out in the relevant Annex.

9. Risk Factors

9.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Sub-Fund. An investment in the Sub-Fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investment. You should note that the price of Units, and the income accruing from the Units, may fall or rise and you may not get back your original investment. Past performance is not indicative of future performance. The NAV of the Sub-Fund will change with changes in the market value of the investments it holds. There can be no assurance that the Sub-Fund will achieve its investment objective. The Sub-Fund does not invest in REITs and you should not expect to receive returns that are expected from REITs or that you will achieve profits or avoid losses, significant or otherwise. The capital return and

income of the Sub-Fund is based on the capital appreciation and income on its investments, less expenses incurred. The Sub-Fund's return may fluctuate in response to changes in such capital appreciation or income. Furthermore, the Sub-Fund may experience volatility and decline in a manner that broadly corresponds with the underlying Index.

9.2 Specific risks

9.2.1 Market risk

The price of securities comprised in the portfolio of the Sub-Fund and the Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, and the market's perception of the securities.

9.2.2 Financial services sector risk

The Sub-Fund's assets may be concentrated in the financial sector, which means the Sub-Fund will be more affected by the performance of the financial sector than a fund that is more diversified. Financial services companies are subject to extensive governmental regulation, which may limit both the amounts and types of loans and other financial commitments they can make, the interest rates and fees they can charge, the scope of their activities, the prices they can charge and the amount of capital they must maintain. Profitability is largely dependent on the availability and cost of capital funds and can fluctuate significantly when interest rates change or due to increased competition. In addition, deterioration of the credit markets generally may cause an adverse impact in a broad range of markets, including U.S. and international credit and interbank money markets generally, thereby affecting a wide range of financial institutions and markets, including financial sector companies in ASEAN.

Certain events in the financial sector may cause an unusually high degree of volatility in the financial markets, both domestic and foreign, and cause certain financial services companies to incur large losses, particularly if there is a fear of cross-defaults or risk of contagion should a financial sector company default, as seen during the Global Financial Crisis. Securities of financial services companies may experience a dramatic decline in value when such companies experience substantial declines in the valuations of their assets, take action to raise capital (such as the issuance of debt or equity securities), cease operations or should credit conditions severely tighten resulting in a loss of investor confidence in the financial markets. Credit losses resulting from financial difficulties of borrowers and financial losses associated with investment activities can negatively impact the sector. Adverse economic, business or political developments could adversely affect financial institutions engaged in mortgage finance or other lending or investing activities directly or indirectly connected to the value of real estate. For the avoidance of doubt, the UOBAM Ping An FTSE ASEAN Dividend Index ETF does not invest in REITs.

9.2.3 Interest rate risk

An investment in the Sub-Fund may involve interest rate risk. Fluctuations in interest rates of the currency or currencies in which the investments are denominated may affect financing costs and the value of the Units of the Sub-Fund.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macro economic factors (such as the economic development in the different currency areas, interest rates and international capital movements, speculation and central bank and government intervention including the imposition of currency controls and restrictions).

9.2.4 Actions of institutional investors

The Sub-Fund may accept subscriptions from institutional investors and such subscriptions may constitute a large portion of the total investments in the Sub-Fund. While these institutional investors will not have any control over the investment decisions for the Sub-Fund, the actions of such investors may have a material effect on the Sub-Fund. For example, substantial realisations of Units by an institutional investor over a short period of time could necessitate the liquidation of the Sub-Fund's assets at a time and in a manner which does not provide maximum economic advantage to the Sub-Fund and which could therefore adversely affect the value of the Sub-Fund's assets.

9.2.5 Liquidity risk

The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Sub-Fund's ability to acquire or dispose of assets at the price and time it so desires.

9.2.6 Derivatives risk

As the Sub-Fund may (subject to the Code and paragraph 7.7) use or invest in FDIs, it will be exposed to risks associated with such investments. These FDIs include but are not limited to options, futures contracts, swaps and warrants. Where such instruments are financial derivatives on commodities, such transactions shall be settled in cash at all times.

An investment in a FDI may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that such investments in FDIs are monitored closely. We have controls for investments in FDIs and have in place systems to monitor the derivative positions of the Sub-Fund. Please see paragraph 7.7 for more information on our risk management procedures on the use of FDIs.

9.2.7 Concentration risk

The Sub-Fund may be subject to concentration risk as a result of tracking the performance of a single geographical region or country (such as the ASEAN region) or industry sector, and its Index may be comprised of a limited number of securities.

The Sub-Fund may therefore likely be more volatile than a broad-based fund, such as a global equity fund, as it is more susceptible to fluctuations in value of its Index resulting from adverse conditions in the particular geographical region, country or industry sector.

9.2.8 Passive Investment

The Sub-Fund is not actively managed. Accordingly, a decline in world market segments that affect the Index may affect the Sub-Fund. Since the Sub-Fund invests all or substantially all of its assets in Index Securities in substantially the same weightings as reflected in the Index, adverse changes in the financial condition or share performance of any security included in the Index may not result in the sale of the shares of such security, and such adverse changes will likely adversely affect the Sub-Fund's value and the trading price of the Units. We do not attempt to select securities individually or to take defensive positions in declining markets. Therefore, we will have limited discretion to remove the securities from the investment portfolio of the Sub-Fund and we may lack discretion to adapt to market changes. A fall in the Index may result in a corresponding fall in the NAV of the Sub-Fund.

9.2.9 Tracking Error risk

There is no assurance that the Sub-Fund will be able to fully track the performance of the Index. "Tracking error" is the difference between the performance of a fund's portfolio and that of its underlying index. The NAV of the Sub-Fund may not correlate exactly with the Index and changes in the NAV of the Sub-Fund are unlikely to replicate exactly changes in the Index.

Factors such as the fees, costs and expenses of the Sub-Fund, imperfect correlation between the Sub-Fund's assets and the securities constituting the Index, rounding of share prices, changes to the Index, regulatory policies, investment and regulatory constraints, foreign currency valuation, unexpected financing costs in the event of severe market movements, inability to rebalance in response to changes in the Index and the existence of a cash position held by the Sub-Fund may affect our ability to achieve close correlation with the performance of the Index. The Sub-Fund's returns may therefore deviate from the Index resulting in a tracking error.

However, such tracking errors are not expected to be significant. As far as possible, we will seek to minimise tracking errors by minimising the cash holdings of the Sub-Fund and by adjusting or rebalancing the investment portfolio of the Sub-Fund, when necessary, to reflect changes in the composition of, or to the weightings of securities in, the Index or to be more in line with the performance and characteristics of the Index as described in the relevant Annex.

You may obtain information on the tracking error and tracking difference of the Sub-Fund (once available) from the Managers' website at www.uobam.com.sg

9.2.10 Operating cost

There is no assurance that the performance of the Sub-Fund will achieve its investment objective. The level of fees and expenses payable by the Sub-Fund will

fluctuate in relation to its NAV. Although the amounts of certain ordinary expenses of the Sub-Fund can be estimated, the growth rate of the Sub-Fund, and hence its NAV, cannot be anticipated.

You should also note that we and the Trustee have the discretion to increase the Managers' fee and Trustee fee up to the maximum level as provided in the relevant Annex.

Accordingly, no assurance can be given as to the performance of the Sub-Fund or the actual level of its expenses.

9.2.11 Trading risk

The Sub-Fund is structured as an index fund and the NAV of the Units of the Sub-Fund will fluctuate with changes in the market value of the Sub-Fund's investments.

The market prices of Units will fluctuate in accordance with changes in the NAV of the Units and supply and demand on any exchange on which the Units are listed. Although the NAV of the Units represents the fair price for buying or selling Units, as with any listed fund, the secondary market price of Units may sometimes trade above or below this NAV. We cannot predict whether Units will trade below, at or above their NAV. Therefore, there is a risk that you may not be able to buy or sell at a price close to this NAV. The deviation from the NAV is dependent on a number of factors, but will be accentuated when there is a large imbalance between market supply and demand for Units on the SGX-ST.

Given, however, that Units must be created and redeemed in Application Unit aggregations (unlike shares of many closed-end funds, which frequently trade at appreciable discounts from, and sometimes at premiums to, their NAV), we believe that ordinarily large discounts or premiums to the NAV of Units should not be sustained. In the event that we suspend creations and/or redemptions of Units of the Sub-Fund, we expect larger discounts or premiums.

9.2.12 Trading in Units on the SGX-ST may be suspended

You will not be able to purchase or sell Units on the SGX-ST during any period when trading in the Units is suspended by the SGX-ST. The SGX-ST may suspend the trading of Units whenever, amongst others, the SGX-ST determines that it is necessary or expedient in the interest of maintaining a fair, orderly and transparent market. The creation and redemption of Units will also be suspended if the trading of Units on the SGX-ST is suspended. The SGX-ST imposes certain requirements for the continued listing of securities, including the Units, on the SGX-ST. There is no assurance that the Sub-Fund will continue to meet the requirements necessary to maintain the listing of Units on the SGX-ST or that the SGX-ST will not change the listing requirements. The Sub-Fund may be terminated if the Units are delisted from the SGX-ST. Dealings of Units on the SGX-ST may not necessarily be suspended if we temporarily suspend the creation and redemption of Units in accordance with the terms of the Deed. If we temporarily suspend the creation and redemption of Units, the trading price of the Units may be adversely affected and may differ from the NAV of the Sub-Fund or Class.

9.2.13 Absence of prior active market

Although the Units have been listed for trading on the SGX-ST, there can be no assurance that an active trading market will be developed or be maintained. There is no certain basis for predicting the actual price levels at, or sizes in, which Units may trade. Further, there can be no assurance that the Units will experience trading or pricing patterns similar to those of market-traded shares which are issued by investment companies in other jurisdictions or which are based upon indices other than the Index.

9.2.14 Dealing risk

If you hold Units in small numbers and you wish to sell your Units, you may not necessarily be able to find other buyers on the SGX-ST if the Units are not widely held at that point. In order to address such dealing risk, we have appointed a Designated Market Maker to improve liquidity in trading of the Units.

The listing of Units on the SGX-ST does not guarantee a liquid market for the Units and there can be no assurance that a liquid secondary market on the SGX-ST will exist for the Units. We intend to assist in the creation of liquidity for investors by appointing at least one Designated Market Maker to maintain a market for the Units on the SGX-ST (please refer to paragraph 5.2 above). However, there is no guarantee or assurance as to the price at which a market will be made. The Designated Market Makers may realise profits or sustain losses in the amount of any differences between the prices at which they buy Units and the prices at which they sell Units. Any profit made by the Designated Market Makers may be retained by them for their absolute benefit and they are not liable to account to the Sub-Fund in respect of such profits.

9.2.15 Creation and Redemption by Designated Market Makers or through Participating Dealers only

You should note that the Sub-Fund is not like a typical unit trust offered to the public in Singapore. You may not subscribe for, or redeem, Units directly with us.

Units may only be created and redeemed by Designated Market Makers or through Participating Dealers. Participating Dealers are under no obligation to agree to do so on behalf of any investor. Accordingly, each Participating Dealer may, in its absolute discretion, refuse to accept your creation or redemption order (whether directly or through your stockbroker) and can charge such fees as it may determine. In addition, the Participating Dealers will not be able to create or redeem Units during any period when, amongst other things, dealings on the SGX-ST are restricted or suspended, settlement or clearing of securities through the CDP is disrupted or the Index is not compiled or published. The Participating Dealers will also not be able to create or redeem Units if some other event occurs which impedes the calculation of the NAV of the Sub-Fund or disposal of the Sub-Fund's portfolio securities cannot be effected.

If you trade in smaller lots, you may generally only realise the value of your Units by selling your Units on the SGX-ST.

These features are not usually present in a typical unit trust offered to the public in Singapore, where you will generally be able to purchase and redeem units directly with the manager of the unit trust.

9.2.16 Political risk and Foreign Security risk

The investments in the Sub-Fund may be adversely affected by a wide variety of factors, including without limitation, political instability, exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in the relevant jurisdictions.

An investment in Units of the Sub-Fund involves risks similar to those of investing in a broad-based portfolio of equity securities traded on exchanges in the relevant overseas securities market, including market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in stock prices. The principal risk factors, which could decrease the value of investments, are listed and described below:

- less liquid and less efficient securities markets;
- greater price volatility;
- exchange rate fluctuations and exchange controls;
- less publicly available information about issuers;
- the imposition of restrictions on the expatriation of funds or other assets of the Sub-Fund;
- higher transaction and custody costs and delays and risks of loss attendant in settlement procedures;
- difficulties in enforcing contractual obligations;
- lesser levels of regulation of the securities markets;
- different accounting, disclosure and reporting requirements;
- more substantial government involvement in the economy;
- higher rates of inflation; and
- greater social, economic, and political uncertainty and the risk of nationalisation or expropriation of assets and risk of war or terrorism.

9.2.17 Foreign Exchange risk

As the investments of the Sub-Fund may be denominated in currencies other than the base currency, which is SGD, fluctuations of the exchange rates of such currencies against the base currency of the Sub-Fund may have an impact on the

income and investments of the Sub-Fund and affect the value of Units. The Sub-Fund may therefore be exposed to foreign exchange/currency risks.

The Managers reserve the discretion to hedge, whether fully, partially or not at all, the foreign currency exposure of the Sub-Fund depending on the prevailing foreign exchange rates, and if no hedging or partial hedging is made, the value of the Sub-Fund may be affected. If the foreign currency exposure of the Sub-Fund is hedged, an active hedging strategy is usually adopted. As at the date of registration of this Prospectus, the Managers do not intend to hedge the foreign currency exposure of the Sub-Fund.

9.2.18 Dual currency trading risk

The Sub-Fund is traded in two different currency denominations on the SGX-ST (i.e. SGD and USD). The price of the Units on the secondary currency counter (i.e. USD) is based on the price of the Units on the primary currency counter (i.e. SGD) and the prevailing foreign exchange rate. Therefore, the performance of the Units on the secondary currency counter may not be the same as that of the primary currency counter due to, amongst other factors, fluctuations in the foreign exchange rate between the SGD and the USD.

9.2.19 Minimum creation and redemption size via the Participating Dealer

Only Participating Dealers and Designated Market Makers may apply directly to us for the creation or redemption of Units, which must be made in an Application Unit size (currently 1,000 Units) or whole number multiples thereof subject to a minimum of 50,000 Units (or such higher number of Units in multiples of 1,000 Units) per Creation or Redemption Application, or such other minimum number of Units as we may determine from time to time with the approval of the Trustee as set out in the relevant Annex. If you wish to subscribe for or redeem Units in the primary market, you must approach a Participating Dealer (whether directly or through a stockbroker) to assist you with your applications to us.

As any subscription or redemption applications for less than the current minimum of 50,000 Units from investors (whether directly or through their stockbrokers) to a Participating Dealer will be rejected by that Participating Dealer, if you do not hold at least 50,000 Units, you may only be able to realise the value of your Units by selling your Units on the SGX-ST. If you do not intend to subscribe for at least 50,000 Units, you may only be able to buy Units on the SGX-ST.

9.2.20 Minimum Fund Size

The Sub-Fund is structured as an index fund with a low total expense ratio (including the Managers' fees and the Trustee fees) compared to typical retail unit trusts. As with any fund, in order to remain viable, the size of the Sub-Fund must be sufficient to cover at least its fixed operating costs. Given the relatively low fees charged to and payable by the Sub-Fund, the minimum size of the Sub-Fund needs to be significantly larger than other typical unit trusts. As provided under paragraph 21.8(a), we may terminate the Sub-Fund, on any date, after three (3) years from the date of the Deed, if on such date the aggregate NAV of the Deposited Property of the Sub-Fund or Class

shall be less than S\$20 million or if the aggregate NAV of the Deposited Property of the Fund shall be less than S\$20 million (as the case may be).

9.2.21 Small and medium capitalisation companies risk

Investments in companies with small or medium capitalisation generally carry greater risk than is customarily associated with companies with larger capitalisation. Examples of such risks are less public information, more limited financial resources and product lines, greater volatility, higher risk of failure than larger companies and less liquidity. This may result in greater volatility in the share prices of such companies. You should be aware that investments in single country, sector or regional funds which may present greater opportunities and potential for capital appreciation may be subject to higher risks as they may be less diversified than a global portfolio.

9.2.22 Risk of using rating agencies and other third parties

Credit ratings of instruments invested into by the Sub-Fund represent our and/or rating agencies' opinion regarding the credit quality of the instrument or the institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

Where we rely on ratings issued by credit rating agencies, we have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the Sub-Fund's investments are in line with these standards. Information on our credit assessment process will be made available to investors upon request.

We may rely, without independent investigation, upon pricing information and valuations furnished to the Sub-Fund by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We will not be responsible for any failures by such parties in their valuations.

9.2.23 Emerging Markets risk

A Sub-Fund may invest in Index Securities listed on stock exchanges of ASEAN countries, including Malaysia, Indonesia, Thailand and Philippines, which are considered to be emerging markets as compared to Singapore.

Investment in assets issued by entities of emerging markets and/or which are denominated in a currency of an emerging market involves additional risks and special considerations not typically associated with investing in assets of other more established economies or securities markets. Such risks may include (i) increased risk of nationalisation or expropriation of assets or confiscatory taxation; (ii) greater social, economic and political uncertainty, including war; (iii) higher dependence on exports and the corresponding importance of international trade; (iv) greater volatility, less liquidity and smaller capitalisation of securities markets; (v) greater volatility in

currency exchange rates; (vi) greater risk of inflation; (vii) greater controls on foreign investment and limitations on repatriation of invested capital and on the ability to exchange local currencies; (viii) increased likelihood of governmental decisions to cease support of economic reform programmes or to impose centrally planned economies; (ix) differences in auditing and financial reporting standards which may result in the unavailability of material information about issuers; (x) less extensive regulation of the securities markets; (xi) longer settlement periods for securities transactions and less reliable clearance and custody arrangements; (xii) less protection through registration of assets and (xiii) less developed corporate laws regarding fiduciary duties of officers and directors and protection of shareholders. There may also be less public information on companies listed on such markets as compared to other stock markets and such public information, if available, may not be available in English.

9.2.24 Redemption by proprietary investments / seed money

The Sub-Fund's NAV may at any time include, to a significant extent, proprietary money (or seed money) invested by one or more interested parties, such as Participating Dealers. Investors should be aware that a significant redemption of any such proprietary investment may affect the management and/or performance of the Sub-Fund and may, in certain circumstances (i) cause remaining investors' holdings to represent a higher percentage of the NAV of the Sub-Fund, (ii) cause other investors in the Sub-Fund to redeem their investment, and/or (iii) lead the Manager, in consultation with the Trustee (where applicable), to consider taking exceptional measures, such as terminating the Sub-Fund in accordance with the Deed.

9.2.25 Tax risk

Investment in the Sub-Fund may have tax implications depending on your circumstances. You are strongly urged to consult your own tax advisers and counsel with respect to the possible tax consequences to you of an investment in the Units.

By investing in securities issued by tax resident companies in ASEAN, irrespective of whether such securities are issued or distributed onshore or offshore, the Sub-Fund may be subject to ASEAN taxes, which may change over time and affect the value of the Index Securities.

We reserve the right to provide for tax on gains of the Sub-Fund (if required), thus impacting the valuation of the Sub-Fund.

9.2.26 Distribution Risk

Where the Sub-Fund makes distributions to Holders, such distributions are at our absolute discretion and are not guaranteed. Distributions may be made from dividends/income and capital gains derived from the investments of the Sub-Fund and/or out of the capital of the Sub-Fund. Distributions which are made from dividends/income are contingent on such dividends/income being paid by the investee entities, and may be adversely affected by events such as (but not limited to) such investee entities suffering unexpected losses and/or paying lower than expected

dividends, and adverse currency exchange rate fluctuations. The declaration and/or payment of distributions (whether out of income, capital gains and/or capital) may have the effect of lowering the NAV of the Sub-Fund. Distributions may also result in reduced future returns to the relevant Holders. Moreover, distributions out of capital may amount to a reduction of part of your original investment.

9.2.27 Distribution may not be paid risk

Whether the Sub-Fund will pay distributions on Units is subject to the Managers' distribution policy and also depends on dividends declared and paid in respect of the Index Securities. Dividend payment rates in respect of the Index Securities will depend on factors beyond the control of the Managers or Trustee, including general economic conditions and the financial position and dividend policies of the relevant issuers of the Index Securities in the investment portfolio of the Sub-Fund. There can be no assurance that such entities will declare or pay dividends or distributions.

9.2.28 Risk of market pricing

The market price of an ETF will be affected by supply and demand imbalance in the ETF. In the case of the Sub-Fund, since the supply and demand imbalance can only be addressed by creation of additional Units and the redemption of existing Units, the liquidity within the ASEAN markets in which the Index Securities trade on will likely result in the Sub-Fund trading at a higher premium or discount to the NAV per Unit than may normally be the case for an ETF.

9.2.29 Legal and regulatory risk

The value and price of the Sub-Fund's investments may be adversely affected by changes in exchange controls, taxation policies, monetary and fiscal policies, foreign investment policies, government policies, restrictions on repatriation of investments and other changes in laws, regulations, restrictions and controls.

9.2.30 Operational and settlement risk

Operational risks may arise from technical failures of communication and trading systems, and any breaches of the relevant operational policies or guidelines by the relevant staff of the Managers. Whilst the Manager has in place internal control systems, operational guidelines and contingency procedures to reduce the chances of such operational risks, there is no guarantee that events beyond the control of the Managers (e.g. trading errors or system errors) will not occur. The occurrence of such events may adversely affect the NAV of the Sub-Fund.

The Sub-Fund may also be exposed to risks associated with settlement procedures. Any significant delays in the settlement of transactions or the registration of a transfer may affect the ability to ascertain the value of the Sub-Fund's portfolio and adversely affect the NAV of the Sub-Fund.

9.2.31 Initial offer period risk

There is a possibility that the value of the Units on the listing date may deviate from the Initial Offer Price of the Units due to fluctuations in the value of the Index Securities during the initial offer period when the subscription monies are received and the listing date.

9.3 Risk Factors relating to the Index

9.3.1 Errors or Inaccuracies in the Index

There may be inaccuracies, errors, omissions or mistakes in the compilation or calculation of the Index, which may result in significant deviations between the NAV of the Units and the Index. The accuracy and completeness of the calculation of the Index may be affected by, without limitation, the availability and accuracy of prices for the Index Securities, market factors and errors in the compilation of the Index. No warranty, representation or guarantee is given as to the accuracy or completeness of the Index and its computation or any information related thereto. The process and the basis of computing and compiling the Index and any of its related formulae, constituent companies and factors may at any time be changed or altered by the Index Provider without notice. We and the Trustee are not responsible or involved in the compilation or calculation of the Index, and thus cannot be held responsible or liable for any inaccuracies, errors, omissions or mistakes in such compilation or calculation.

9.3.2 Index is Subject to Fluctuations

The performance of the Units should correspond closely with the performance of the Index. The Index may experience periods of volatility in the future. If the Index experiences volatility or declines, the price of the Units will vary or decline accordingly.

9.3.3 New Index risk

The Index is a new index launched on 3 October 2025. The Fund may be riskier than other exchange traded funds tracking more established indices with longer operating history.

9.3.4 License to use Index may be terminated

We have been granted a licence by the Index Provider to use the Index in connection with the operation, marketing and promotion of the Sub-Fund. The Sub-Fund may be terminated if the index licence agreement is terminated or the Index is no longer available for benchmarking and we are unable to identify or agree with the Index Provider or any other index provider terms for the use of a suitable replacement index that uses, in our opinion, the same or substantially similar formula for the method of calculation as the Index. If we are able to obtain the use of a suitable replacement index for the Sub-Fund, such replacement index will be notified to Holders. Accordingly, you should note that the ability of the Sub-Fund to track the Index depends on the continuation in force of the index licence agreement in respect of the Index or a suitable replacement. Except as disclosed above, we are currently not

aware of any material licensing condition in relation to the use of the Index which may prevent the Sub-Fund from achieving its objective.

9.3.5 Compilation of Index risk

The Index Securities are determined and composed by the Index Provider without regard to the performance of the Sub-Fund. The Sub-Fund is not sponsored, endorsed, sold or promoted by the Index Provider. The Index Provider makes no representation, warranty, express or implied, to investors in the Sub-Fund or other persons regarding the advisability of investing in Index Securities generally or in the Sub-Fund particularly. The Index Provider has no obligation to take the needs of the Manager or investors in the Sub-Fund into consideration in determining, composing or calculating the Index. There is no assurance that the Index Provider will compile the Index accurately, or that the Index will be determined, composed or calculated accordingly. In addition, the process and the basis of computing and compiling the Index and any of its related formulae, constituent companies and factors may at any time be changed or altered by the Index Provider without notice. Consequently there can be no guarantee that the actions of the Index Provider will not prejudice the interests of the Sub-Fund, the Managers or investors.

9.3.6 Composition of and weightings in the Index may change

The securities which comprise the Index are changed by the Index Provider from time to time. The price of the Units may rise or fall as a result of such changes. The composition of the Index may also change if one of the constituent companies were to delist its securities or if a new eligible company were to list its securities and be added to the Index.

The composition of the FTSE ASEAN ex REITs Target Dividend Index will change if any of the Index Securities are delisted, or as the Index Securities mature or are redeemed or as new securities are included in the FTSE ASEAN ex REITs Target Dividend Index. When this happens, the weightings or composition of the FTSE ASEAN ex REITs Target Dividend Index Securities owned by the Sub-Fund will change as considered appropriate by the Managers to achieve its investment objective. Thus, an investment in Units will generally reflect the FTSE ASEAN ex REITs Target Dividend Index as its constituents change and not necessarily the way it is comprised at the time of an investment in Units. However, there can be no guarantee that the Sub-Fund will, at any given time, accurately reflect the composition of the FTSE ASEAN ex REITs Target Dividend Index.

9.3.7 Trading Differences risk

As some of the Recognised Exchanges which Index Securities are traded on may be open when Units in the Sub-Fund are not priced, the value of the Securities in the Sub-Fund's portfolio may change on days when investors will not be able to purchase or sell the Sub-Fund's Units. Furthermore, the market price of underlying Securities listed on such Recognised Exchanges may not be available during part or all of the SGX-ST trading sessions due to trading hour differences, if any, which may result in the trading price of the Sub-Fund deviating away from the NAV.

9.3.8 Trading in Index Securities may be suspended

The Index Securities may be temporarily or permanently suspended from trading. When the Index Securities are suspended from trading on a large scale, the Sub-Fund may not be able to sell the Index Securities in time to obtain sufficient redemption consideration as required. In such cases, the Managers may take measures to suspend redemption, and the investors will be exposed to the risk of being unable to redeem all or part of their Units.

No assurance can be given as to the effect that any combination of risk factors may have on the value of the Units. You should not consider the above to be an exhaustive list of the risks which you should consider before investing in the Sub-Fund. You should be aware that an investment in the Sub-Fund may be exposed to other risks of an exceptional nature from time to time.

10. Subscription of Units

We reserve our right to reject or refuse any subscription application without assigning any reason, including if we are of the view that we are not able to or it becomes impossible or impracticable to acquire or buy the Authorised Investments required by the Sub-Fund in order to achieve its investment objective.

10.1 Initial Offer Period and Initial Offer Price

During the initial offer period of any Sub-Fund (the “**Initial Offer Period**”), you may (i) approach the placement agents appointed by the Managers for more information on how to apply for Units through the Participating Dealers appointed by the Managers or (ii) apply for Units in an Application Unit size (or whole number multiples thereof) subject to the minimum number of Units as provided in the relevant Annex (or such other minimum number of Units as we may determine from time to time with the approval of the Trustee) using cash through the Participating Dealers or (iii) acquire Units through the ATM or internet banking (if applicable). In relation to the UOBAM Ping An FTSE ASEAN Dividend Index ETF, details of the Initial Offer Period are set out under Annex 1.

Currently, in-kind subscriptions are not permitted. In-kind subscriptions may be permitted at our discretion in the future and investors are advised to check with us or the Participating Dealers with regards to the same. You may approach us for more information on how to apply for Units through the ATM or internet banking (if applicable) or through the Participating Dealers appointed by us.

The offer and issue of Units during the Initial Offer Period is subject to and conditional upon valid subscription applications accepted by the Managers for such minimum value as set out in the relevant Annex by the close of the Initial Offer Period.

The Managers will inform the Participating Dealers and the Trustee if the above condition is not fulfilled. The subscription amount (including any brokerage fees and charges) paid by the Participating Dealer will be returned to the Participating Dealer (without interest) and investors will be refunded by the Participating Dealer and should consult the Participating Dealer on the procedure for such refund.

During the Initial Offer Period, the amount that you will have to pay for the number of Units applied for is calculated by multiplying the number of Units applied for by the Initial Offer Price of the Units. The Initial Offer Period and Initial Offer Price for each Sub-Fund or Class is set out in the relevant Annex of this Prospectus.

During the Initial Offer Period, your subscription application through Participating Dealers must be received by the relevant Participating Dealer by 12:00 p.m. (Singapore time) on the last Dealing Day of the Initial Offer Period (or by such other time(s) as may be determined by the relevant Participating Dealer), in order for the Participating Dealers to be able to submit all valid subscription applications for Units to the Managers by 1:00 p.m. on the last Dealing Day of the Initial Offer Period (or such other time(s) as may be determined by the Managers).

10.2.3 Creation of Units by Participating Dealers

The following information applies to Participating Dealers when they submit Creation Applications to us. A Creation Application once given cannot be revoked or withdrawn without our consent (except during any period commencing after any suspension of

issuance of Units as set out in paragraph 13.1 and before termination of such suspension, in accordance with the Deed).

(i) **Application Unit Size**

We offer and issue Units in the Sub-Fund or Class at their NAV only in aggregations of an Application Unit.

We will not accept any Creation Applications submitted by a Participating Dealer in respect of Units less than the minimum of 50,000 Units (or such higher number of Units in multiples of 1,000 Units) as provided in the relevant Annex.

(ii) **Issue of Units**

Dealing Period:	<p>From 9 a.m. (Singapore time) to the Dealing Deadline of 12 p.m. (Singapore time) on any Dealing Day.</p> <p>For Creation Applications received on a day which is not a Dealing Day or is received after the Dealing Deadline on a Dealing Day, that Creation Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application.</p> <p>Units to be created in respect of a Creation Application received (or deemed received) and accepted in accordance with the Operating Guidelines on a Dealing Day shall be issued at that Dealing Day's Issue Price but, for valuation purposes only, such Units shall be deemed created and issued after the Valuation Point in relation to the Dealing Day on which the relevant Creation Application was received or deemed received and the Register will be updated one Business Day after the Settlement Day (or on such other day as we may from time to time agree with the Trustee).</p>
Pricing basis:	Units are issued on a forward pricing basis.
Issue price:	<p>After the Initial Offer Period, the Issue Price per Unit of the Sub-Fund or Class is:</p> <ul style="list-style-type: none"> the NAV per Unit of the Sub-Fund or Class as at the Valuation Point in relation to the Dealing Day on which such issue occurs; and truncated to four (4) decimal places (or such other number of decimal places or method of

	determination or rounding as may be determined by us from time to time with the approval of the Trustee).
Deduction of Transaction Fee, price slippage, foreign exchange slippage, and Duties and Charges:	<p>We may charge Participating Dealers:</p> <ul style="list-style-type: none"> • a Transaction Fee; • price slippage; • foreign exchange slippage; and • such sum (if any) as we may consider represents the appropriate provision for the Duties and Charges that may be charged in respect of the Creation Application. <p>We may set off and deduct any Transaction Fee, price slippage, foreign exchange slippage, and Duties and Charges payable by a Participating Dealer against any cash amount due to the Participating Dealer in respect of such Creation Application.</p> <p>We will not add to the Issue Price or pay out from the Deposited Property any commission, remuneration or other sum payable by us to any agent or other person in respect of the issue or sale of any Unit.</p>
Confirmation of purchase:	<p>For every successful application for Units by a Participating Dealer, the Participating Dealer will be sent a confirmation, detailing the number of Units allotted within five (5) Business Days after the receipt of the Creation Application by the Registrar. No certificates will be issued in respect of Units.</p>

(iii) **Procedures for Creation of Application Unit Size**

Upon application by a Participating Dealer, we may instruct the Trustee to effect, for the account of the Sub-Fund or Class, the creation of Units in the Sub-Fund or Class in an Application Unit size (or whole number multiples thereof) subject to a minimum of 50,000 Units (or such higher number of Units in multiples of 1,000 Units) as set out in the relevant Annex in exchange for Authorised Investments acceptable to us or cash or a combination of both in accordance with the Operating Guidelines and the Deed, subject to any terms and conditions as we may impose. Currently, in-kind subscriptions are not permitted. In-kind subscriptions may be permitted at our discretion in the future and investors are advised to check with us or the Participating Dealers with regards to the same.

Where the aggregate value of the Authorised Investments delivered by a Participating Dealer exceeds the NAV of the Units subscribed for, as determined in accordance with the Operating Guidelines, the Sub-Fund will pay the Participating Dealer a cash amount equal to the difference.

If the Sub-Fund has insufficient cash required to pay such cash amount to the Participating Dealer, we may effect sales of the Deposited Property of the Sub-Fund, or may borrow moneys to provide the cash required (to the extent permitted under the Code).

Once the Units are created, we shall effect, for the account of the Sub-Fund or Class, the issue of Units to the relevant Participating Dealer in accordance with the Operating Guidelines and the Deed.

SGD Class Units are denominated in Singapore dollars and no fractions of a Unit shall be created or issued by the Trustee.

The Trustee shall be entitled to refuse to enter (or allow to be entered) Units in the Register if at any time the Trustee is of the opinion that the provisions of the Deed, with regards to the issue of Units, are being infringed.

10.3 Numerical example of how Units are allotted

Subscription through Participating Dealers

The following is an example of the total amount you will have to pay based on an investment amount of 50,000 SGD Class Units if you submit a subscription application to a Participating Dealer (whether directly or through a stockbroker), during the Initial Offer Period:

50,000 Units	X	S\$1.0000	=	S\$50,000	+	Participating Dealer fee ^{^^} of S\$600	=	S\$50,600 +
Number of Units proposed to be subscribed		Initial Offer Price [^]						<i>applicable fees and charges (including brokerage fees and charges), if any</i>
								Total amount payable by you*

[^] Based on an Initial Offer Price of S\$1.0000 per Unit. You should note that the Initial Offer Price may be changed to such other amount as may be determined by the Managers from time to time with the approval of the Trustee. If the subscription monies received from you during the Initial Offer Period are insufficient to buy at least an Application Unit size and the minimum amount of Units as stated in the relevant Annex (or such other minimum number of Units as we may determine from time to time with the approval of the Trustee) and to pay all fees and charges in connection with the subscription, the application will be rejected and the Managers will refund all the subscription monies (less all fees in connection with the subscription) paid by you (without interest) by no later than three (3) Business Days after the close of the Initial Offer Period.

^{^^} The Participating Dealer fee of S\$600 may be waived by the Managers.

The following is an example of the total amount you will have to pay based on an investment amount of 50,000 SGD Class Units in the Sub-Fund if you submit a subscription application

to a Participating Dealer (whether directly or through a stockbroker), after the Initial Offer Period:

50,000 Units Number of Units proposed to be subscribed	x	S\$2.8000 Notional Issue Price [^]	=	S\$140, 000	+	Duties and Charges of S\$500	+	Partici pating Dealer fee of S\$600 ^{^^}	+	Slippages * of S\$400 [#]	=	S\$141,500 + <i>applicable fees and charges (including brokerage fees and charges), if any</i> Total amount payable by you ^{**}
---	---	--	---	----------------	---	--	---	--	---	--	---	---

[^] Based on an Issue Price of S\$2.8000 per Unit. This example is for illustrative purposes only and is not an indication of future or likely performance of the Sub-Fund. The value of Units of the Sub-Fund and the resultant income may fluctuate. The actual fees and charges payable for the Sub-Fund are provided in the relevant Annex.

^{^^} Subject to the prevailing GST. The Participating Dealer fee of S\$600 may be waived by us.

[#] Based on negative price slippage (payable by Participating Dealer).

^{*} Includes foreign exchange slippage and price slippage. Foreign exchange slippage is capped at 0.05% for Creation Applications and 0.05% for Redemption Applications. Price slippage is subject to market movements and may vary (i.e. positive or negative).

^{**} You should also note that there may be additional fees and charges (including brokerage fees and charges) that you may have to pay to the Participating Dealers and/or stockbrokers (as may be determined by the relevant Participating Dealer and/or stockbroker). Such additional fees and charges have not been included in the above example. You should note that Participating Dealers will have to pay a Transaction Fee to the Trustee and may have to pay price slippage, foreign exchange slippage and Duties and Charges in respect of each Creation Application. Such Transaction Fee, price slippage, foreign exchange slippage and Duties and Charges (if any) may ultimately be passed on to and borne by you. If you wish to subscribe for Units through the Participating Dealers (whether directly or through a stockbroker), you should therefore consult the relevant Participating Dealer or stockbroker for the actual amount of all fees and charges that would be payable to them for assisting you with your subscription application.

The number of Units to be issued will be truncated to two decimal places.

10.4 Rejection and Cancellation of Creation Applications for Units in the Sub-Fund

The following information applies to Participating Dealers when they submit Creation Applications to us.

10.4.1 Rejection of Creation Applications for Units in the Sub-Fund

We have the absolute discretion to reject in whole or in part any Creation Application or to issue fewer Units than the number of Units applied for without assigning any reason including (but not limited to) if:

- (i) the acceptance of any Authorised Investments relating to the Creation Application or of the Creation Application would otherwise, in our opinion, have an adverse effect or consequence (including tax consequences) on the Sub-Fund;
- (ii) we reasonably believe that the acceptance of any Authorised Investments included in the Creation Application would be unlawful or result in the non-compliance or breach of any terms or conditions of such Creation Application, or any provisions of the Deed, or any law or regulation made pursuant thereto, or any decree, order or judgment of any court, or any guideline, request or announcement (whether legally binding or not) made by any authority or any requirements of the Authority or the SGX-ST or otherwise for such reason as we may deem necessary to protect the interests of the Holders of the Sub-Fund;
- (iii) circumstances beyond our control make it, for all practicable purposes, impossible to process such Creation Application, including, but not limited to the situation where there are insufficient Authorised Investments available to the Sub-Fund to process a cash Creation Application on the relevant Dealing Day or if we are unable to invest the cash proceeds of a cash Creation Application; or
- (iv) we have suspended the issuance of Units pursuant to Clause 11(J) or Clause 11(D)(ii) of the Deed.

In addition, we may also reject a Creation Application made by a Participating Dealer if:

- (i) the Creation Application is not in a form and substance satisfactory to, and accompanied by such documents as may be required by, us and the Trustee in accordance with the Operating Guidelines or is not made in an Application Unit size (or whole number multiples thereof) subject to a minimum of 50,000 Units (or such higher number of Units in multiples of 1,000 Units) as stated in the relevant Annex or such other minimum number of Units as we may determine from time to time with the approval of the Trustee and/or is not made in accordance with the terms of the relevant Participation Agreement;
- (ii) we and the Trustee have not received copies of the certifications required under the relevant Participation Agreement or (where applicable) we and the Trustee have not received such other certifications as each of us may consider necessary to ensure compliance with applicable securities and other laws in relation to the creation and issue of Units which are the subject of the Creation Application; or

- (iii) the relevant Participating Dealer has not satisfied all terms and conditions as may be imposed by us.

10.4.2 Cancellation of Creation Application for Units in the Sub-Fund

- (i) **Cancellation of Creation Application for Units due to settlement failure**

The Trustee shall cancel a Creation Application for Units in the Sub-Fund if it has not received good title to any of the Authorised Investments relating to the Creation Application deposited for exchange or any such Authorised Investments have not been vested upon the trusts of the Deed in the Trustee or to the Trustee's satisfaction or evidence of title and instruments of transfer satisfactory to the Trustee have not been produced to and to the order of the Trustee and/or cash amounts relating to the Creation Application, the Transaction Fee and/or the price slippage and/or the foreign exchange slippage and/or the Duties and Charges have not been received by or for the account of the Sub-Fund in cleared funds by such time on the Settlement Day as prescribed in the Operating Guidelines provided that we may at our discretion, with the approval of the Trustee, (a) extend the settlement period (either for the Creation Application as a whole or for the affected Authorised Investments only) such extension to be on such terms and conditions as we may determine; or (b) partially settle the Creation Application to the extent to which the Authorised Investments have been vested in and/or cash in cleared funds have been received by the Trustee, on such terms and conditions as we may determine. We may charge the Participating Dealer for the account of the Trustee (c) a Partial Delivery Request Fee on each occasion that we grant the Participating Dealer's request for partial delivery of the Authorised Investments and/or partial payment of the cash amounts in respect of a Creation Application for the benefit of the Trustee and (d) an Extension Fee on each occasion that we grant the Participating Dealer's request for extending the settlement period.

- (ii) **Cancellation of Creation Application for Units due to inability to invest**

In addition to the preceding circumstances, we may also instruct the Trustee to cancel any Creation Application for Units if we determine by such time as we specify in the Operating Guidelines that we are unable to invest the cash proceeds of the relevant Creation Application. This may occur if insufficient Authorised Investments are available to the Sub-Fund to process the cash Creation Application on the relevant Dealing Day.

- (iii) **Fees and Charges relating to Cancellation of Creation Application for Units / Withdrawal of Creation Applications for Units**

Upon the cancellation of any Creation Application for Units as provided for above in paragraphs 10.4.2(i) or 10.4.2(ii) or if a Participating Dealer otherwise withdraws any Creation Application with our consent (save during any period commencing after any suspension of issuance as set out in paragraph 13.1 and before termination of such suspension, in accordance

with the Deed), any Authorised Investments or cash received by or on behalf of the Trustee in connection with the relevant Creation Application shall be redelivered to the Participating Dealer (without interest) and the relevant Units to which the cancelled or withdrawn Creation Application relates shall be deemed for all purposes never to have been created and the applicant therefor shall have no right or claim against us or the Trustee in respect of such cancellation or withdrawal provided that:

- (a) we may, at our discretion, charge the Participating Dealer an Application Cancellation Fee (as set out in the relevant Annex) for the account of the Trustee;
- (b) we may, at our discretion, require the Participating Dealer to pay to the Trustee for the account of the Sub-Fund in respect of each Unit so cancelled a Cancellation Compensation, which shall encompass all reasonable costs incurred including brokerage fees, Duties and Charges (as applicable) and any losses suffered by the Sub-Fund for having to unwind the trades as a result of the cancellation;
- (c) the Trustee shall be entitled to the Transaction Fee paid or payable by the Participating Dealer in respect of the Creation Application;
- (d) any price slippage and/or foreign exchange slippage paid or payable by the Participating Dealer in respect of the Creation Application shall be retained for the benefit of the Sub-Fund; and
- (e) no previous valuations of the Sub-Fund shall be re-opened or invalidated as a result of the cancellation or withdrawal of such Creation Application for Units.

We may, with the approval of the Trustee, at our discretion extend the settlement period for the Participating Dealer to deliver the relevant Units to the Trustee for redemption, where such extension is to be on such terms and conditions as we may determine but, in any event, not later than one (1) month from the receipt of an effective Redemption Application. We may charge the Participating Dealer for the account of the Trustee an Extension Fee on each occasion that we grant the Participating Dealer's request for extending the settlement period.

Such additional fees and charges have not been included in the above example. You should also note that Participating Dealers will have to pay a Transaction Fee to the Trustee and may have to pay price slippage, foreign exchange slippage and Duties and Charges in respect of each Redemption Application. Such Transaction Fee, price slippage, foreign exchange slippage and Duties and Charges (if any) may ultimately be passed on to and borne by you. 13. Suspension of Issue, Realisation and Valuation of Units

13.1 Subject to the provisions of the Code, we may, with the prior written approval of the Trustee, suspend the determination of the NAV of any Sub-Fund or Class and the issue and/or

realisation of the Units in relation to any Sub-Fund or Class during amongst other things the following periods:

- (i) any period when the Recognised Exchange or the OTC Market on which any Authorised Investments forming part of the Deposited Property for the time being are listed or dealt in is closed (otherwise than for ordinary holidays) or during which dealings in such Authorised Investments are restricted or suspended or, in relation to a Sub-Fund that seeks to track the performance of an underlying index, any period when the Recognised Exchange or the OTC Market on which any securities comprised in the underlying index to be tracked by the Sub-Fund or any securities comprised in such underlying index or any securities comprised in a composite portfolio constructed to replicate such underlying index, is closed (otherwise than for ordinary holidays) or during which dealings in such securities are restricted or suspended;
- (ii) any period when there exists, in our opinion, any state of affairs which constitutes an emergency as a result of which disposal of the Authorised Investments would not be reasonably practicable or might seriously prejudice the interests of Holders of the relevant Sub-Fund or Class or of the Fund, as the case may be, as a whole;
- (iii) any period when there is any breakdown in the usual means of communication in determining the value of any Authorised Investments (including any period when the fair value of a material portion of the Authorised Investments cannot be determined) or when for any reason whatsoever the Value of any Authorised Investment cannot, in our opinion, be promptly and accurately ascertained;
- (iv) any period when in our opinion any remittance of money which will be or may be involved in the realisation of the Authorised Investments or payment for Authorised Investments cannot be reasonably carried out at the normal rates of exchange;
- (v) any 48 hour period (or such longer period as we and the Trustee may agree) prior to the date of any meeting of Holders of the Sub-Fund or the relevant Class (or any adjourned meeting thereof);
- (vi) any period when dealing of Units is suspended pursuant to any order or direction of the Authority;
- (vii) any period when the Trustee's or our business operations with respect to the operation of the Fund or of the Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, civil unrest or acts of God;
- (viii) any period when in our opinion, the acquisition or purchase or disposal or sale of any of the Authorised Investments is not possible, not advisable or becomes impracticable or restricted due to any reason (including, without limitation to the foregoing, as a result of a default by the issuer of an Authorised Investment);
- (ix) any period when the underlying index to be tracked by the Sub-Fund is not compiled or published or where the licence or right to use the underlying index has been terminated for any reason;

- (x) in the case of a Feeder Fund, any period when the market on which the relevant Underlying Fund is listed, or the official clearing and settlement depository (if any) of such market, is closed, and (in respect of the Feeder Fund) such closure has an adverse impact on dealings in the primary market of the Feeder Fund;
- (xi) in the case of a Feeder Fund, any period when dealings on the market on which the relevant Underlying Fund is listed, are restricted or suspended, and (in respect of the Feeder Fund) such restriction or suspension has an adverse impact on dealings in the primary market of the Feeder Fund;
- (xii) in respect of a Feeder Fund, during a period when dealings in or trading of the relevant Underlying Fund is suspended;
- (xiii) upon listing of the Units on the SGX-ST and for so long as the Units are listed on the SGX-ST:
 - (a) any period when the SGX-ST is closed (otherwise than for ordinary holidays);
 - (b) any period when dealings of the Units on the SGX-ST are restricted or suspended; or
 - (c) any period when settlement or clearing of securities in CDP is disrupted; or
- (xiv) such circumstances as may be required under the provisions of the Code.

13.2 Such suspension shall take effect upon us providing a written declaration to the Trustee and, subject to the provisions of the Code, shall terminate on the day following the first Business Day on which the condition giving rise to the suspension shall have ceased to exist and no other conditions under which suspension is authorised under the circumstances set out in paragraph 13.1 above shall exist upon us providing a written declaration of the same.

Subject to the provisions of the Code, any payment for any Units realised before the commencement of any such suspension which has not been paid before the commencement thereof may, if the Managers and Trustee so agree, be deferred until immediately after the end of such suspension.

13.3 During any suspension by reason of any of the circumstances set out in paragraphs 13.1(i) to (xiv) (as applicable) above, the calculation of the NAV of the Sub-Fund and each Unit (including the Issue Price and Redemption Value) may also be suspended. Immediately following the suspension, we will publish the fact that the dealings and/or valuation of Units are suspended, and at least once a month during the period of such suspension in such newspaper or newspapers in Singapore and will make an announcement on SGXNET and on our website (if applicable), and elsewhere as we may, in consultation with the Trustee, from time to time think fit.

13.4 Pursuant to the Deed, in the event we shall at any time, in consultation with the Trustee, determine that it would be detrimental to existing Holders for us to issue or realise and/or continue to issue or realise Units at a price based on the Value of the Deposited Property as described in the Deed, we may adjust the Issue Price or Redemption Value in accordance with the provisions of the Deed and may temporarily suspend the issuance and/or realisation of Units solely for such purpose and during any period of consultation or adjustment of the

Issue Price and Redemption Value. Such suspension shall take effect upon our providing a written declaration to the Trustee and, subject to the provisions of the Code, shall end on the day following the first Business Day on which the condition giving rise to the suspension shall have ceased to exist and no other conditions under which suspension is authorised under Clause 11(D) and Clause 13(D) of the Deed (as the case may be) shall exist upon us providing a written declaration of the same.

- 13.5** In addition, pursuant to the Deed, if, immediately after any relevant day, the number of Units in relation to the Sub-Fund in issue or deemed to be in issue, having regard to redemptions and issues falling to be made by reference to that relevant day, would be less than such proportion (not exceeding 90 per cent.), as we may determine from time to time, of the number of Units in issue or deemed to be in issue on that relevant day, we may, with a view to protecting the interests of all Holders of the Sub-Fund:

(1) elect that the Redemption Value in relation to all (but not some only) of the Units falling to be redeemed by reference to that relevant day shall be the price per Unit of the Sub-Fund which, in our opinion, reflects a fairer value for the Deposited Property of the Sub-Fund having taken into account the necessity of selling a material proportion of the Investments at that time constituting part of the Deposited Property of such Sub-Fund; and

(2) by giving notice to the Holders affected thereby within two (2) Business Days after the relevant day,

we may, subject to the provisions of the Code, suspend the redemption of those Units for such reasonable period as may be necessary to effect an orderly redemption of Investments.

- 13.6** We may also, with a view to protecting the interests of all Holders of the Sub-Fund or Class and with the approval of the Trustee, limit the total number of Units which Holders of the Sub-Fund or Class may redeem and which we are entitled to have cancelled pursuant to the Deed on any Dealing Day to ten (10) per cent. of the total number of Units relating to the Sub-Fund or Class then in issue (disregarding any Units which have been agreed to be issued). We will apply such limitation proportionally to all Holders in relation to the Sub-Fund or Class who have validly requested redemptions on such Dealing Day and us, so that the proportion redeemed of each holding so requested to be redeemed or cancelled pursuant to the Deed is the same for all the Holders of the Sub-Fund or Class and us. Any Units which are not redeemed or cancelled (as the case may be) as a result shall be redeemed or cancelled on the next succeeding Dealing Day Provided That if on such next succeeding Dealing Day, the total number of Units to be cancelled or redeemed (as the case may be), including those carried forward from any earlier Dealing Day, exceeds such limit, we may further carry forward the requests for redemption or cancellation (as the case may be) until such time as the total number of Units to be redeemed or cancelled (as the case may be) on a Dealing Day falls within such limit (with any Units which have been carried over as aforesaid be, on any such succeeding Dealing Day, redeemed or cancelled in priority to any new Units due to be redeemed or cancelled on that Dealing Day). If Redemption Applications are carried forward as aforesaid, we will, within seven (7) days, give notice to the affected Holders that such Units have not been redeemed or cancelled and that (subject as aforesaid) they shall be redeemed or cancelled on the next succeeding Dealing Day.

14. Exchange Clearance and Settlement

For the purpose of trading on the SGX-ST, a board lot for the Units will comprise 1 Unit.

Units will be cleared and settled under the electronic book-entry clearance and settlement system of CDP. All dealings in and transactions of the Units through the SGX-ST will be effected in accordance with the terms and conditions for the operation of Securities Accounts, as amended from time to time.

CDP, a wholly-owned subsidiary of Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the Securities Accounts maintained by such accountholders with CDP.

It is expected that the Units will be credited into or debited from the Securities Accounts of the relevant investors for the Units within two (2) Business Days after the transaction date on which the Units have been purchased or sold through the SGX-ST.

14.1 Clearance and Settlement under the Depository System

The Units will be registered in the name of CDP or its nominee and held by CDP for and on behalf of persons who maintain, either directly or through depository agents, Securities Accounts with CDP. Persons named as direct Securities Account holders and depository agents in the depository register maintained by CDP will be treated as Holders in respect of the number of Units credited to their respective Securities Accounts. You should note that as long as the Units are listed on the SGX-ST, Units may not be withdrawn from the depository register kept by CDP.

Transactions in the Units under the book-entry settlement system will be reflected by the seller's Securities Account being debited with the number of Units sold and the buyer's Securities Account being credited with the number of Units acquired and no transfer stamp duty is currently payable for the transfer of Units that are settled on a book-entry basis.

Units credited to a Securities Account may be traded on the SGX-ST on the basis of a price between a willing buyer and a willing seller. Units credited into a Securities Account may be transferred to any other Securities Account with CDP, subject to the relevant transferor investor having attained the age of 21 years unless otherwise permitted by law and the terms and conditions for the operation of Securities Accounts and a transfer fee payable to CDP (you should refer to the CDP's website at <https://investors.sgx.com/dashboard> for the latest applicable transfer fee). All persons trading in the Units through the SGX-ST should ensure that the relevant Units have been credited into their Securities Account, prior to trading in such Units, since no assurance can be given that the Units can be credited into the Securities Account in time for settlement following a dealing. If the Units have not been credited into the Securities Account by the due date for the settlement of the trade, the buy-in procedures of the CDP will be implemented.

Dealings in the Units will be carried out in Singapore dollars, based on the trading currency of the Units purchased on the SGX-ST and will be effected for settlement in CDP on a scripless basis. Settlement of trades on a normal "ready" basis on the SGX-ST generally takes place

on the second Business Day following the transaction date. CDP holds securities on behalf of investors in Securities Accounts. An investor may open a direct account with CDP or a sub-account with any CDP depository agent. A CDP depository agent may be a member company of the SGX-ST, bank, merchant bank or trust company.

14.2 Clearing Fees

A clearing fee for the trading of Units on the SGX-ST is payable at a rate of 0.0325 per cent of the contract value. The clearing fee, instrument of transfer, deposit fee and unit withdrawal fee may be subject to Singapore's prevailing GST.

15. Restrictions on Holders and Compulsory Realisations

15.1 Every person purchasing Units will be deemed to have represented, agreed and acknowledged that it is not an Unauthorised US Person (as defined in the Glossary of Terms).

We have power to impose such restrictions as we may think necessary for the purpose of ensuring that no Units are acquired or held which would result in such holding being:

- a breach of the law or requirements of any country or governmental authority or any stock exchange on which the Units are listed in circumstances which, in our opinion, might result in the Fund and/or the Sub-Fund being adversely affected which the Fund and/or the Sub-Fund might not otherwise have suffered; or
- in the circumstances which, in our opinion, may result in the Fund and/or the Sub-Fund incurring any tax liability or suffering any other pecuniary disadvantage which the Fund might not otherwise have incurred or suffered; or
- held by an Unauthorised US Person (as defined in the Glossary of Terms).

Upon notice that any Units are so held, we may require such Holders to redeem or transfer such Units in accordance with the provisions of the Deed. A person who becomes aware that he is holding or owning Units in breach of any of the above restrictions is required either to redeem his Units in accordance with the Deed or to transfer his Units to a person whose holding would be permissible under this Prospectus and the Deed.

15.2 Without prejudice to paragraph 15.1, we have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in the Sub-Fund held by:

- (i) any Holder:
 - (a) whose subscription for or holding of Units, in our opinion, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (b) where such realisation is, in our opinion, necessary or desirable for our compliance or the compliance of the Sub-Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (ii) any Holder whose holdings, in our opinion:
 - (a) may cause the Sub-Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or

- (b) may cause the offer of the Units of the Sub-Fund, the Sub-Fund, this Prospectus, the Deed, us or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (iii) any Holder whose holdings, in our opinion:
 - (a) may cause a detrimental effect on the tax status of the Sub-Fund in any jurisdiction or on the tax status of the Holders of the Sub-Fund; or
 - (b) may result in the Sub-Fund or other Holders of the Sub-Fund suffering any other legal or pecuniary or administrative disadvantage which the Sub-Fund or Holders might not otherwise have incurred or suffered; or
- (iv) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where information and/or documentary evidence requested by us and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder (or the Holder has failed to provide the same) in a timely manner; or
- (v) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by us and/or the Trustee pursuant to laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA and/or any Singapore laws, regulations, guidelines and directives implemented as part of any IGA entered into between the U.S. and Singapore in connection with FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (vi) any Holder who does not consent, or withdraws his consent, for us or the Trustee to collect, use and/or disclose information or data relating to the Holder, where (in the opinion of the Managers or the Trustee) such information or data is necessary or desirable for us, the Trustee, their respective related corporations and/or other service providers to perform our or their respective services and/or duties to or in respect of the Sub-Fund and/or the Holder.

Any compulsory realisation under this paragraph 15.2 may be carried out by us on any Dealing Day, with prior notice to the relevant Holder, and shall be carried out in accordance with, and at the realisation price determined under, the applicable provisions on realisations in the Deed.

15.3 If we and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units held by a Holder, we (in consultation with the Trustee) shall be entitled, at any time with prior notice to that Holder, to realise such number of Units held by that Holder as may be necessary to discharge the liability arising. We and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

15.4 We, the Trustee and their respective delegates, agents or associates shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or

interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by us, Trustee and/or any of our or their respective delegates, agents or associates under this paragraph 15.

16. Transfer of Units

Units held by Holders may be transferred by an instrument in writing in common form signed by (or, in the case of a body corporate, signed on behalf of or sealed by) the transferor and the transferee subject to the transferor having attained the age of 21 years unless otherwise permitted by law. The transferor will be deemed to remain the Holder of the Units transferred until the name of the transferee is entered in the relevant Register in respect of such Units.

For so long as the Units are listed on the SGX-ST, transfers of Units between depositors (i.e. direct account holders with CDP and depository agents whose names are entered in CDP's register in respect of Units held by them) shall be effected electronically through CDP making an appropriate entry in CDP's electronic register of the Units that have been transferred in accordance with CDP trading requirements, and the above sub-paragraph will not apply to such transfers.

The transfer of Units is subject to such fees or charges as may from time to time be imposed by CDP and / or the appointed agents or distributors or the Trustee which will be borne by the investor.

17. Performance of the Sub-Fund

The past performance, expense and turnover ratios of the Sub-Fund (and where applicable each Class thereof) are set out in the relevant Annex.

18. Soft Dollar Commissions/Arrangements and Brokerage Transactions

18.1 Soft Dollar Commissions/Arrangements

Subject to the provisions of the Code, we may from time to time receive or enter into soft-dollar commissions/arrangements in the management of the Sub-Fund. We will comply with applicable regulatory and industry standards on soft dollars.

The soft-dollar commissions/arrangements may include specific advice as to the advisability of dealing in, the value of any investment, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurement, market analyses, data and quotation services and computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research and the analysis, and custodian services in relation to the investments managed for the Sub-Fund.

Soft-dollar commissions/arrangements shall not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We will not accept or enter into soft-dollar commissions/arrangements in respect of the Sub-Fund unless (a) such soft-dollar commissions/arrangements can reasonably be expected to assist us in our management of the Sub-Fund, (b) best execution is carried out for the

transactions and (c) no unnecessary trades are entered into in order to qualify for such soft-dollar commissions / arrangements.

We do not, and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of the Sub-Fund.

18.2 Brokerage Transactions

Our policy regarding purchases and sales of Authorised Investments is that primary consideration will be given to obtaining the most favourable prices and efficient execution of transactions. Consistent with this policy, when transactions are effected on a stock exchange, our policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances.

We believe that a requirement always to seek the lowest possible commission cost may impede effective portfolio management and preclude us and the Sub-Fund from obtaining a high quality of brokerage and research services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, we rely upon our experience and knowledge regarding commissions generally charged by various brokers and on our judgment in evaluating the brokerage and research services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise and, as in most cases, an exact dollar value for those services is not ascertainable.

We, our directors and our Associates are not entitled to receive any part of any brokerage charged to the Sub-Fund or any part of any fees, allowances or benefits (other than the soft dollar commissions or arrangements mentioned above) received on purchases or sales charged to the Sub-Fund.

19. Conflicts of Interest

19.1 Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and the Sub-Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("**CFA Institute**") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.

- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for the Sub-Fund on an arm's length basis.

Save as provided in the Deed, our associates may be engaged to provide banking, brokerage, financial or other services to the Fund and Sub-Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Fund or the Sub-Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the Sub-Fund and, in particular, our obligation to act in the best interests of the Sub-Fund and the Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

- (i) invest monies of the Sub-Fund in the securities of any of our related corporations (as defined in Section 4 of the Companies Act 1967) (each, a "**related corporation**");
- (ii) invest monies of the Sub-Fund in other collective investment schemes managed by us or our related corporations; and
- (iii) deposit monies of the Sub-Fund in the ordinary course of business of the Fund with our related corporations which are banks licensed under the Banking Act 1970, finance companies licensed under the Finance Companies Act 1967, merchant banks licensed under the Banking Act 1970 or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

We will endeavour to ensure that such investments and deposits are made on normal commercial terms and are consistent with the investment objective, focus and approach of the Sub-Fund.

- 19.2** In addition, we and the Trustee and our respective Associates (collectively the "**Parties**") are or may be involved in other financial, investment and professional activities which may on occasion cause conflict of interest with the management of the Sub-Fund. These include, inter

alia, the management of other funds, purchases and sales of securities, investment and management counselling, brokerage services, trustee and custodial services and serving as directors, officers, advisers or agents of other funds or other companies, including companies in which the Sub-Fund may invest.

- 19.3** Each of the Parties will respectively ensure that the performance of their respective duties will not be impaired by any such involvement that they might have. If a conflict of interest does arise, the Parties shall endeavour to ensure that it is resolved fairly and in the interest of Holders.

19.4 Trustee's conflicts of interest disclosures

19.4.1 The Trustee shall conduct all transactions with or for the Sub-Fund on an arm's length basis.

19.4.2 The Trustee, the registrar and the Custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Sub-Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Sub-Fund. Each will, at all times, have regard in such event to its obligations to the Sub-Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders' interests.

19.4.3 The services of the Trustee provided to the Fund and the Sub-Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the Fund or the Sub-Fund) so long as its services to the Fund and the Sub-Fund are not impaired thereby and to retain for its own use and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the Fund or the Sub-Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

19.4.4 Save as provided in the Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to the Fund and the Sub-Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Fund or the Sub-Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis. In particular,

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Fund. The Custodian may also appoint related parties as sub-custodians. Cash will

be placed with the custodian as banker or may, at our discretion, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/interest for such services and may receive other benefits in connection with such services; and

- (b) where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively “**foreign exchange transactions**”), are entered into for or on behalf of the Sub-Fund with an affiliate of the Trustee (a “**State Street counterparty**”), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, us or the Sub-Fund and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the Sub-Fund with counterparties other than a State Street counterparty.

20. Reports

Financial year-end and distribution of reports and accounts

The financial year-end for the Sub-Fund is 30 June.

The reports and accounts of the Sub-Fund (once available) will be sent or made available to Holders by post or by such electronic means as may be permitted under the Code within the following periods or such other period as may be permitted by the Authority:

Report/account	Availability

(b) Semi-annual report and semi-annual accounts	Within 2 months from the end of the period to which the report and accounts relate.

If such reports and accounts are sent or made available to Holders by electronic means, Holders will be given the option to request for hardcopies of the reports and accounts within one (1) month from the date of the relevant notification and the Trustee will make available or cause to be made available hardcopies of the reports and accounts to any Holder who requests for them within two (2) weeks of such request (or such other period as may be permitted by the Authority). Holders may also at any time choose to receive hardcopies of all future accounts and reports at no cost to them by notifying the relevant authorised agent or distributor in writing.

21. Other Material Information

Provisions of the Deed

Some of the provisions of the Deed are set out below. ***You should refer to the Deed for the full terms and conditions of the Fund.***

21.1 Custody of Deposited Property

The Trustee shall be responsible for the safe custody of the Deposited Property. Any Authorised Investments forming part of the Deposited Property shall, whether in bearer or registered form, be paid or transferred to or to the order of the Trustee forthwith on receipt by the Managers and be dealt with as the Trustee may think proper for the purpose of providing for the safe custody thereof. The Trustee may from time to time upon notification in writing to the Managers appoint such person or persons as it thinks fit (including itself or its Associates) as agents, nominees, custodians or sub custodians in respect of any of the Authorised Investments and (where the Trustee is custodian) may appoint or (where the Trustee appoints a custodian) may empower such custodian or joint custodian (as the case may be) to appoint with prior consent in writing of the Trustee, sub-custodians in respect of any of the Authorised Investments, and the fees and expenses of such agents, nominees, custodians and sub custodians shall be paid out of the Deposited Property of the Sub-Fund or otherwise as may be agreed between the Managers and the Trustee. Subject to this paragraph 21.1 and Clause 26(D) of the Deed, the Trustee shall remain liable for any act or omission of any agent, nominee, custodian or sub-custodian with whom bearer Authorised Investments or documents of title to registered Authorised Investments are deposited as if the same were the act or omission of the Trustee. The Trustee may at any time procure that the Trustee; any officer of the Trustee jointly with the Trustee; any agent or nominee appointed by the Trustee; any such agent or nominee and the Trustee; any custodian, joint custodian or sub-custodian (or, in each case its nominee) appointed; any company operating a depository or recognised clearing system (including its nominee) in respect of the Deposited Property of the Sub-Fund; or any broker, financial institution or other person (or in each case, its nominee, its custodian or such custodian's nominee) with whom the same is deposited in order to satisfy any requirement to deposit margin or security, take delivery of and retain and/or be registered as proprietor of any Authorised Investment in registered form held upon the trusts of the Deed. Notwithstanding anything contained in the Deed:-

- (i) the Trustee shall not incur any liability in respect of or be responsible for losses incurred through the insolvency of or any act or omission of any depository or clearing system with which Authorised Investments may be deposited or any broker, financial institution or other person with whom Authorised Investments are deposited in order to satisfy any margin requirement;
- (ii) the Trustee shall not incur any liability in respect of or be responsible for losses incurred through the insolvency of or any act or omission of any nominee, custodian, joint custodian or sub-custodian selected and appointed by the Trustee except where the Trustee has failed to exercise the degree of care and diligence required of a trustee in the selection, appointment and monitoring of such appointee (having regard to the market in which the relevant appointee is located) or the Trustee is in wilful default; and

- (iii) the Trustee shall not incur any liability in respect of or be responsible for losses incurred through the insolvency of or any act or omission of any nominee, custodian, joint custodian or sub-custodian not selected or appointed by it.

Any Authorised Investment in registered form shall as soon as reasonably practicable after receipt of the necessary documents by the Trustee, be registered in the name of the Trustee and/or its nominee and shall remain so registered until disposed of pursuant to the provisions of the Deed. Subject as aforesaid the Trustee shall retain the documents of title to all Authorised Investments held upon the trusts of the Deed in its possession in safe custody.

21.2 Indemnities, Exemptions from Liability and Disclaimers

- 21.2.1** Neither the Trustee nor the Managers shall be under any liability except such liability as may be expressly imposed by the Deed nor shall any of them (save as otherwise provided in the Deed) be liable for any act or omission of the other of them.
- 21.2.2** Neither the Trustee nor the Managers shall incur any liability in respect of any action taken or thing suffered by them in reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganisation or other document of title or other paper or document believed to be genuine and to have been passed, sealed or signed by the proper parties.
- 21.2.3** Neither the Trustee nor the Managers shall incur any liability to the Holders for doing or (as the case may be) failing to do any act or thing which by reason of any provision of any present or future law or regulation made pursuant thereto, or of any decree, order or judgment of any court, or by reason of any request, announcement or similar action (whether of binding legal effect or not) which may be taken or made by any person or body acting with or purporting to exercise the authority of any government or regulatory authority (whether legally or otherwise) either they or any of them shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out any of the provisions of the Deed neither the Trustee nor the Managers shall be under any liability therefor or thereby.
- 21.2.4** Neither the Trustee nor the Managers shall be responsible for any authenticity of any signature or of any seal affixed to an endorsement on any certificate or to any transfer or form of application, request for realisation, endorsement or other document affecting the title to or transmission of Units (including signatures on such documents received by facsimile or electronic transmission) or be in any way liable for any forged or unauthorised signature on or any seal affixed to such endorsement, transfer or other document or for acting upon or giving effect to any such forged or unauthorised signature or seal or for exercising their discretion not to act on such instructions received by facsimile or electronic transmission, provided that the Trustee and the Managers reasonably believed that such signature or seal was authentic. The Trustee and the Managers respectively shall nevertheless be entitled but not bound to require that the signature of any person to any document required to be signed by him under or in connection with the Deed shall be verified or otherwise authenticated to its or their reasonable satisfaction.

- 21.2.5** Any indemnity expressly given to the Trustee or the Managers in the Deed is in addition to and without prejudice to any indemnity allowed by law; Provided Nevertheless That nothing in any of the provisions of the Deed shall in any case in which the Trustee and/or the Managers, as the case may be, have failed to show the degree of diligence and care required of them by the provisions of the Deed exempt them from or indemnify them against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to them in respect of any negligence, default, breach of duty or trust of which they may be guilty in relation to their duties.
- 21.2.6** Neither the Trustee nor the Managers shall be responsible for acting upon any resolution purporting to have been passed at any meeting of Holders of any Sub-Fund, Class or the Fund (as the case may be) in respect whereof minutes shall have been made and signed even though it may be subsequently found that there was some defect in the constitution of the meeting or the passing of the resolution or that for any reason the resolution was not binding upon all the Holders of the Sub-Fund, Class or Fund (as the case may be).
- 21.2.7** The Trustee and the Managers may accept as sufficient evidence of the Value of any Authorised Investment or the cost price or sale price thereof or of any market quotation a certificate by a stockbroker or any other person, firm or association qualified in the opinion of the Managers and Trustee to provide such a certificate.
- 21.2.8** At all times and for all purposes of the Deed, the Trustee and the Managers may rely upon the established practice and rulings of the SGX-ST or any other Recognised Exchange and any committees and officials thereof on which any dealing in any Authorised Investment or other property is from time to time effected in determining what shall constitute a good delivery and any similar matters and such practice and rulings shall be conclusive and binding upon all persons under the Deed.
- 21.2.9** If the Managers or the Trustee is requested by any department of any government or administration to provide such department with any information regarding any one or more of the following, namely, the Fund or Sub-Fund, the Holders or any of them, the Sub-Fund's investments, the income of the Sub-Fund, or the provisions of the Deed, and complies with such request, whether or not enforceable, none of the Trustee or the Managers shall incur any liability to the Holders or any of them or to any other person as a result of such compliance or in connection with such compliance.
- 21.2.10** In the absence of fraud or gross negligence by the Managers or the Trustee, they shall not incur any liability by reason of any error of law or any matter or thing done or suffered or omitted to be done by it in good faith under the provisions of the Deed and in particular, but without prejudice to the generality of the foregoing, neither the Managers nor the Trustee shall, in ascertaining the Value of any Unquoted Investment (where applicable), be under any liability by reason of the fact that a price reasonably believed to be the mean of the bid and offer prices quoted by responsible institutions in the OTC Market at the time of calculation (or at such other time as may be determined by the Managers after consultation with the Trustee) may be found not to be such.

- 21.2.11** Nothing contained in the Deed shall be construed so as to prevent the Managers and the Trustee in conjunction or the Managers or the Trustee separately from acting as managers or trustee of trusts separate and distinct from the Fund and the Sub-Fund and neither of them shall in any way be liable to account to the Fund, the Sub-Fund or any Holder or other person for any profit or benefit made or derived hereby or in connection therewith.
- 21.2.12** In no event shall a Holder have or acquire any rights against the Trustee and Managers or either of them except as expressly conferred upon such Holder by the Deed.
- 21.2.13** The Trustee shall not be bound to make any payment to any Holder except out of the funds held by it for that purpose under the provisions of the Deed.
- 21.2.14** The Trustee shall not incur any liability for any loss which a Holder may suffer by the reason of any depletion in the NAV of the Deposited Property which may result from any securities lending transaction effected under Clause 15(H) of the Deed and shall be indemnified out of and have recourse to the Deposited Property in respect thereof.
- 21.2.15** Neither the Managers nor the Trustee shall incur any liability by reason of any loss which a Holder may suffer by reason of any depletion in the NAV of the Deposited Property which may result from any borrowing arrangements made pursuant to Clause 16(C) of the Deed by reasons of fluctuations in the rates of exchange and (save as otherwise expressly provided in the Deed) the Trustee shall be entitled to be indemnified out of and have recourse to the Deposited Property in respect of any liabilities, costs, claims or demands which it may suffer arising directly or indirectly from the operation of Clause 16 of the Deed and the arrangements referred to therein.
- 21.2.16** Subject as expressly provided in the Deed, the Trustee shall be entitled for the purpose of indemnity against any actions, costs, claims, damages, expenses or demands to which it may be put as trustee to have recourse to the Deposited Property or any part thereof (without prejudice to the obligation of the Managers to reimburse the Trustee on account of the Deposited Property in respect of all such matters relating to the Trustee's remuneration as falling within Clause 23(B) of the Deed).
- 21.2.17** Upon the Fund or the Sub-Fund being terminated, the Trustee shall be entitled to retain out of any monies in its hands as part of the Deposited Property under the provisions of Clause 35 of the Deed to be distributed to Holders full provision for all fees, costs, charges, expenses, claims and demands incurred, made or apprehended by the Trustee in connection with or arising out of the liquidation of the Fund or Sub-Fund (as the case may be) and out of the monies so retained to be indemnified and saved harmless against any such costs, charges, expenses, claims and demands.
- 21.2.18** Neither the Trustee nor the Managers shall be liable for any lost profits, economic loss or indirect, special or consequential losses and damages suffered by the Fund, the Sub-Fund or any Holder.
- 21.2.19** The Managers and the Trustee are not responsible for compiling the Index or verifying the accuracy of the Index information.

21.2.20 The Trustee shall not be under any liability on account of anything done or suffered by the Trustee in good faith in accordance with or in pursuance of any request, instruction or advice of the Managers under the Deed.

21.2.21 Neither the Managers nor the Trustee shall be liable for any loss suffered by the Deposited Property of any Sub-Fund or to any Holder of Units for any loss or damage arising from reasons or crisis beyond their control, or the control of their respective employees including without limitation nationalisation, expropriation, acts of war, terrorism, insurrection, revolution, civil unrest, riots, strikes, nuclear fusion or acts of God.

21.3 Voting by Managers, Trustee and Custodian

The Managers, Trustee, Custodian and their respective Connected Persons and any director of the Managers are prohibited from voting their beneficially held Units at or be counted in the quorum for a meeting of Holders at which they have a material interest in the business to be conducted.

21.4 Voting rights in respect of the Deposited Property

Subject to Clause 21 of the Deed, the Managers may exercise or refrain from exercising any rights of voting conferred by any of the Deposited Property of the Sub-Fund. The Managers shall be entitled to exercise the said rights in what they may consider to be the best interests of the Holders of the Sub-Fund.

However, notwithstanding the above, in respect of voting rights where the Managers may face a conflict between their own interest and that of the Holders of the Sub-Fund, the Managers shall cause such voting rights to be exercised in consultation with the Trustee.

The phrase "rights of voting" or the word "vote" used in this paragraph 21.4 shall be deemed to include not only a vote at a meeting but any consent to or approval of any arrangement, scheme or resolution or any alteration in or abandonment of any rights attaching to any part of the Deposited Property and the right to requisition or join in a requisition to convene any meeting or to give notice of any resolution or to circulate any statement.

Please refer to the Deed for other provisions relating to voting.

21.5 Valuation

The NAV of the Sub-Fund and the NAV per Unit shall be calculated as at the Valuation Point in relation to each Dealing Day save where the valuation of the Units is suspended pursuant to the Deed (the circumstances under which such suspension may take place are set out in paragraph 13 above).

The NAV of the Sub-Fund shall be calculated by valuing the assets of the Sub-Fund in accordance with the Deed and deducting from such amount the liabilities of the Sub-Fund in accordance with the Deed (the relevant provisions of which are reproduced below in this paragraph 21.5).

The NAV per Unit shall be obtained by taking the NAV of the Sub-Fund and dividing the same by the number of Units in issue or deemed to be in issue immediately prior to the relevant Dealing Day and truncating such amount to four (4) decimal places (or such other number of

decimal places or method of rounding as may be determined by the Managers from time to time with the approval of the Trustee).

The “**Value**”, except where otherwise expressly stated and subject always to the requirements of the Code, with reference to any Authorised Investment which is:

- (i) a Quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price on such Recognised Exchange or OTC Market as at the Valuation Point in respect of the Dealing Day on which the Value is to be determined; where such Quoted Investment is listed, dealt or traded in more than one Recognised Exchange or OTC Market, the Managers (or such person as the Managers shall appoint for the purpose) may in their absolute discretion select any one of such Recognised Exchange or OTC Market for the foregoing purposes and, if there be no such official closing price, last known transacted price or last transacted price, the Value shall be calculated by reference to the last available prices quoted by responsible firms, corporations or associations on a Recognised Exchange or an OTC Market at the Valuation Point in respect of the Dealing Day on which the Value is to be determined;
- (ii) an Unquoted Investment, shall be calculated by reference to the initial value thereof being the amount expended in the acquisition thereof or the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such Designated Market Maker, then such Designated Market Maker as the Managers may designate), as may be determined by the Managers to represent the fair value of such Authorised Investment and in the valuation of such Authorised Investment the Managers may take into account relevant factors including without limitation significant recent events affecting the issuer such as pending mergers and acquisitions and restrictions as to saleability or transferability;
- (iii) cash, deposits and similar assets shall be valued (by an Approved Valuer) at their face value (together with accrued interest) unless, in the opinion of the Managers, any adjustment should be made to reflect the value thereof;
- (iv) an Investment other than as described above, shall be valued (by an Approved Valuer) in such manner and at such time as the Managers shall determine after consultation with the Trustee,

PROVIDED THAT, if the quotations referred to above are not available, or if the Value of the Authorised Investment determined in the manner described above, in the opinion of the Managers, is not representative, then the Value shall be such value as the Managers may with due care and in good faith consider in the circumstances to be fair value and is approved by the Trustee. The Managers shall notify the Holders of such change if required by the Trustee. For the purposes of this proviso, the “fair value” shall be determined by the Managers in consultation with a Stockbroker or an Approved Valuer and with the approval of the Trustee, in accordance with the Code.

In exercising in good faith the discretion given by the proviso above, the Managers shall not, subject to the provisions of the Code, assume any liability towards the Fund or Sub-Fund, and

the Trustee shall not be under any liability in accepting the opinion of the Managers, notwithstanding that the facts may subsequently be shown to have been different from those assumed by the Managers.

In calculating the NAV of the Deposited Property or any proportion thereof:

- (a) every Unit agreed to be issued by the Managers shall be deemed to be in issue and the Deposited Property shall be deemed to include not only cash or other assets in the hands of the Trustee but also the value of any cash, accrued interest on bonds or interest-bearing instruments or other assets to be received in respect of Units agreed to be issued and (in the case of Units issued against the vesting of Authorised Investments) any moneys payable out of the Deposited Property pursuant to Clause 9 of the Deed;
- (b) where Authorised Investments have been agreed to be purchased or otherwise acquired or sold but such purchase, acquisition or sale has not been completed, such Authorised Investments shall be included or excluded and the gross purchase, acquisition or net sale consideration excluded or included as the case may require as if such purchase, acquisition or sale had been duly completed;
- (c) where in consequence of any notice or request in writing given pursuant to Clauses 12 or 13 of the Deed, a reduction of the Sub-Fund by the cancellation of Units is to be effected but such reduction has not been completed, the Units in question shall not be deemed to be in issue and any amount payable in cash and the value of any Authorised Investments to be transferred out of the Deposited Property shall be deducted from the NAV;
- (d) all sums which are payable out of the Deposited Property but not provided for above shall be deducted, including (without limitation):
 - (1) any amount of the management fee, the Trustee fee, the cost of establishment of the Sub-Fund and any other expenses accrued but remaining unpaid;
 - (2) the amount of tax, if any, on capital gains (including any provision made for unrealised capital gains) accrued up to the end of the last Accounting Period and remaining unpaid;
 - (3) the amount in respect of tax, if any, on net capital gains realised during a current Accounting Period prior to the valuation being made as in the estimate of the Managers will become payable;
 - (4) the aggregate amount for the time being outstanding of any borrowings effected under Clause 16(C) of the Deed together with the amount of any interest and expenses thereon accrued pursuant to sub-Clause 16(C)(iv) of the Deed and remaining unpaid; and
 - (5) all such costs, charges, fees and expenses as the Managers may have determined pursuant to the provisions of the Deed;

- (e) there shall be taken into account such sum as in the estimate of the Managers will fall to be paid or reclaimed in respect of taxation related to Income up to the time of calculation of the NAV of the Deposited Property;
- (f) there shall be added the amount of any tax, if any, on capital gains estimated to be recoverable and not received;
- (g) any Value (whether of an Authorised Investment, cash or a liability) otherwise than in Singapore dollars and any non-Singapore dollar borrowing shall be converted into Singapore dollars at the rate (whether official or otherwise) which the Managers shall after consulting with or in accordance with a method approved by the Trustee deem appropriate to the circumstances having regard inter alia to any premium or discount which may be relevant and to the costs of exchange;
- (h) where the current price of an Authorised Investment is quoted "ex" dividend, interest or other payment but such dividend, interest or other payment has not been received the amount of such dividend, interest or other payment shall be taken into account; and
- (i) there shall be taken into account such estimated sum approved by the Trustee as in the opinion of the Managers represents provision for any nationalisation, expropriation, sequestration or other restriction relating to the Deposited Property.

The Managers may, subject to the prior approval of the Trustee, and to the extent permitted by the Authority and applicable laws and regulations, change the method of valuation provided in this paragraph 21.5 and the Trustee shall determine if the Holders shall be informed of such change.

21.6 Removal or Retirement of Managers

The Managers will remain as managers of the Fund for the entire duration of the Fund unless the Managers retire or are removed in accordance with the provisions of the Deed (as reproduced below).

Any costs and expenses incurred in connection with the removal or retirement of the Managers shall be payable out of the Deposited Property.

21.6.1 Retirement of Managers

- (i) Upon giving 6 months' written notice to the Trustee, the Managers shall have power to retire in favour of a corporation approved by the Trustee upon and subject to such corporation entering into such deed or deeds supplemental to the Deed to replace the Managers.
- (ii) The retiring Managers shall be absolved and released from all further obligations under the Deed after a deed has been entered into to secure the due performance by the new managers of their obligations under the Deed, and after the retiring Managers have paid to the Trustee all sums due by the retiring Managers to the Trustee under the Deed at the date thereby. However, this will not prejudice the rights of the Trustee or of any Holder, former Holder

or other person in respect of any act or omission of the Managers prior to their retirement.

21.6.2 Removal of Managers

The Managers shall be subject to removal by written notice given by the Trustee in any of the following events:

- (a) if the Managers go into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee) or if a receiver is appointed over any of their assets or if a judicial manager is appointed in respect of the Managers;
- (b) if the Managers cease to carry on business;
- (c) if the Managers fail or neglect after reasonable notice from the Trustee to carry out or satisfy any obligations imposed on the Managers by the Deed;
- (d) if for good and sufficient reason the Trustee is of the opinion, and so states in writing, that a change of the Managers is desirable in the interests of the Holders Provided That if the Managers within one (1) month after such statement express their dissatisfaction in writing with such opinion, the matter shall then forthwith be referred to arbitration in accordance with the provisions of the Arbitration Act 2001, before three (3) arbitrators, the first of whom shall be appointed by the Managers, the second of whom shall be appointed by the Trustee and third of whom shall be appointed by mutual agreement of the first and second arbitrators so appointed (failing which the third arbitrator shall be jointly appointed by the Managers and the Trustee) and any decision made pursuant thereto shall be binding upon the Managers and the Trustee and the Holders;
- (e) if the Holders by extraordinary resolution passed at a meeting of Holders of the Fund duly convened and held in accordance with the provisions of the Schedule to the Deed decide to remove the Managers;
- (f) if the Managers no longer hold a capital markets services licence for fund management or are no longer exempt from such licensing under the SFA or are otherwise prohibited under applicable laws and regulations to act as managers of the Fund; or
- (g) if the Authority directs the Trustee to remove the Managers.

In any of such events the Trustee shall appoint another corporation as the new managers of the Fund in accordance with the provisions in the Deed or terminate the Fund in accordance with paragraph 21.7 below.

21.7 Termination of the Fund or the Sub-Fund or Class

- 21.7.1** Subject to Section 295 of the SFA, the Fund or the Sub-Fund or a Class (as the case may be) may be terminated at any time by the Trustee by notice in writing:

- (a) if the Managers go into liquidation (other than a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee) or if a receiver is appointed over any of their assets or any part thereof or if a judicial manager is appointed in respect of the Managers or if any encumbrancer shall take possession of any of their assets or any part thereof or if the Managers shall cease business;
- (b) if on the expiration of six (6) months after notifying the Managers of their removal under paragraph 21.6.2, the Trustee has not found another corporation ready to accept the office of managers and of which the Trustee and any relevant statutory authority shall approve provided always that if the Managers shall be dissatisfied with the circumstances in which the Trustee's power of termination under this paragraph 21.7.1(b) on any occasion is exercised the matter shall be referred to arbitration in accordance with the provisions of the Arbitration Act 2001, before three (3) arbitrators, the first of whom shall be appointed by the Managers, the second of whom shall be appointed by the Trustee and third of whom shall be appointed by mutual agreement of the first and second arbitrators so appointed (failing which the third arbitrator shall be jointly appointed by the Managers and the Trustee) and any decision made pursuant thereto shall be binding upon the Managers and the Trustee and the Holders of the Fund or the Sub-Fund or a Class (as the case may be);
- (c) if any law shall be passed, any authorisation withdrawn or revoked or the Authority or SGX-ST issues any direction which renders it illegal or in the opinion of the Trustee impracticable or inadvisable to continue the Fund or the Sub-Fund or a Class (as the case may be); or
- (d) if within the period of six (6) months from the date of the Trustee expressing in writing to the Managers the desire to retire, the Managers shall have failed to appoint a new trustee in accordance with the relevant provisions of the Deed.

Subject to paragraph 21.7.1(b), the decision of the Trustee in any of the events specified in this sub-paragraph shall be final and binding upon all the parties concerned but the Trustee shall be under no liability on account of any failure to terminate the Fund or the Sub-Fund or a Class (as the case may be) pursuant to this sub-paragraph or otherwise. Subject to paragraph 21.7.1(b), the Managers shall accept the decision of the Trustee and relieve the Trustee of any liability to it therefor and hold it harmless from any claims whatsoever on their part for damages or for any other relief.

21.8 The Fund or the Sub-Fund or a Class (as the case may be) may be terminated at any time by the Managers at any time in their absolute discretion, by notice in writing:

- (a) on any date, after three (3) years from the date of the Deed, if on such date the aggregate NAV of the Deposited Property of the Sub-Fund or Class shall be less than S\$20 million (or its equivalent in any other currency) or if the aggregate NAV of the Deposited Property of the Fund shall be less than S\$20 million (or its equivalent in any other currency) (as the case may be);

- (b) if any law shall be passed, any authorisation withdrawn or revoked or if the Authority or SGX-ST issues any direction which renders it illegal or in the opinion of the Managers impracticable or inadvisable to continue the Fund or Sub-Fund or Class;
- (c) in the case where the Managers decide to retire, either the Trustee shall be unable to find a person acceptable to the Authority to act as the new managers after the expiration of six (6) months from the Managers giving the Trustee notice of their intention to retire pursuant to Clause 32(B) of the Deed, or the person nominated by the Trustee as the new managers shall fail to be approved by an Extraordinary Resolution pursuant to Clause 32(D) of the Deed;
- (d) in the event of the amalgamation, reconstruction, reorganisation, dissolution, liquidation, merger or consolidation of any Underlying Fund corresponding to that Sub-Fund, or a change in the managers or investment advisers of any such Underlying Fund;
- (e) if the underlying index to be tracked by the Sub-Fund is no longer available for benchmarking or the agreement entered into by the Managers and the index provider to use the underlying index is terminated and, in the Managers' opinion, no suitable replacement index is available to the Sub-Fund;
- (f) if the Authority revokes or withdraws the authorisation of the Sub-Fund under the SFA or (in respect of the Fund) if the Authority revokes or withdraws the authorisation of all the sub-funds of the Fund under the SFA;
- (g) upon listing of the Units in the Sub-Fund on the SGX-ST and for so long as the Units are listed on the SGX-ST:
 - (i) if the Units are no longer listed on the SGX-ST or any other Recognised Exchange; or
 - (ii) if the Managers are unable to find an acceptable person to act as a participating dealer or designated market maker of the Units;
- (h) if the Authority directs the termination of the Fund or the Sub-Fund; or
- (i) if the Managers are of the opinion that it is impracticable or inadvisable to continue the Fund or the Sub-Fund or Class (including, without limitation to the foregoing, when in the Managers' opinion, the acquisition or purchase or disposal or sale of or continued investment in any of the Authorised Investments is not possible, not advisable or becomes impracticable or restricted due to any reason (including, without limitation to the foregoing, upon a default by an issuer of an Authorised Investment) or, in the case of the Sub-Fund, in the event the Managers are of the opinion there is no satisfactory method through which the underlying index to be tracked by the Sub-Fund may be tracked or if such method is otherwise not available to the Managers or impracticable or not advisable for the Managers to employ for the Sub-Fund).

21.9 The party terminating the Fund or the relevant Sub-Fund or Class shall give notice thereof to the Holders fixing the date at which such termination is to take effect which date shall not be less than three (3) months after the service of such notice (or such earlier date as necessary to comply with any applicable law or direction given by the Authority), except that the party

may terminate the Fund or the relevant Sub-Fund or Class immediately pursuant to paragraphs 21.7.1(a), 21.7.1(c), 21.8(b), 21.8(f), 21.8(g) and 21.8(h). Any such notice will also be concurrently published on the Managers' website and (for so long as the relevant Sub-Fund or Class is listed on the SGX-ST) posted on the SGXNET. The Managers shall give written notice thereof to the Authority not less than seven (7) days before such termination or as may be required by the Authority. For so long as the Sub-Fund or Class is listed on the SGX-ST, notice of such termination will also be announced on the SGXNET at least seven (7) days before the effective date of termination of the Fund or the relevant Sub-Fund or a Class (as the case may be) or as may be required by SGX-ST.

21.10 The Fund or the Sub-Fund or a Class may at any time from the date hereof be terminated by, in the case of the termination of the Fund, an extraordinary resolution of a meeting of the Holders of the Fund, and in the case of the termination of the Sub-Fund or a Class, an extraordinary resolution of a meeting of the Holders of the Sub-Fund or a Class (as the case may be) duly convened and held in accordance with the provisions contained in the Deed and such termination shall take effect from the date on which the said extraordinary resolution is passed or such later date (if any) as the said extraordinary resolution may provide.

21.11 The Trustee may (with the consent of the Managers) remove the Fund to the jurisdiction of a country other than Singapore, if it appears to the Trustee to be beneficial to the Fund and in the interests of the Holders to do so. The circumstances in which the Trustee may exercise its discretion hereunder are limited to the outbreak of war or grave civil unrest threatening the safe maintenance of the banking system or securities market in Singapore.

21.12 Modification of Deed

The Trustee and the Managers shall be entitled by deed supplemental hereto or by an amending and restating deed and with the prior approval of the relevant authorities, if applicable, to modify, alter or add to the provisions of the Deed in such manner and to such extent as they may consider expedient for any purpose; Provided That the Trustee shall certify in writing that in its opinion such modification, alteration or addition (a) does not materially prejudice the interests of the Holders and does not operate to release to any material extent the Trustee or the Managers from any responsibility to the Holders, (b) is necessary in order to comply with applicable fiscal, statutory or official requirements (whether or not having the force of law) or (c) is made to remove obsolete provisions or to correct a manifest error. In all other cases, modification require the sanction of an Extraordinary Resolution of the Holders affected.

22. Liquidation of the Managers, the Trustee or the Custodian

Subject to the provisions of the Deed, if the Managers or the Trustee go into liquidation (except for a voluntary liquidation for the purpose of reconstruction or amalgamation), new managers or a new trustee (as the case may be) may be appointed or the Sub-Fund may be terminated. See the Deed for further details on what happens if the Managers or the Trustee go into liquidation.

Custodial risk

There are risks involved in dealing with the Custodian who holds the Sub-Fund's investments or settles the Sub-Fund's trades. It is possible that, in the event of the insolvency or bankruptcy

of the Custodian, the Sub-Fund would be delayed or prevented from recovering its assets from the Custodian, or its estate, and may have only a general unsecured claim against the Custodian for those assets. In recent insolvencies of financial institutions, the ability of certain customers to recover their assets from the insolvent financial institution's estate has been delayed, limited, or prevented, often unpredictably, and there is no assurance that any assets held by the Sub-Fund with the Custodian will be readily recoverable by the Sub-Fund. In addition, there may be limited recourse against non-U.S. sub-custodians in situations where the Sub-Fund invests in markets where custodial and/or settlement systems and regulations are not fully developed, including emerging markets, and the assets of the Sub-Fund have been entrusted to such non-U.S. sub-custodians.

We will endeavour to conduct the affairs of the Sub-Fund in such a way that the Sub-Fund will satisfy the qualifying conditions under the Section 13D Scheme for the life of the Sub-Fund. Notwithstanding the foregoing, there is no assurance that we will, on an on-going basis, be able to ensure that the Sub-Fund will always meet all the qualifying conditions for the Section 13D Scheme. If the Sub-Fund is disqualified from the Section 13D Scheme, it may be exposed to Singapore tax on its income and gains, wholly or partially as the case may be, at the prevailing corporate tax rate. The Sub-Fund can however, enjoy the tax exemption under the Section 13D Scheme in any subsequent period if it is able to satisfy the specified conditions

in that subsequent period.

23.2 Holders' level

Distributions paid by the Sub-Fund out of income derived during the periods that the Sub-Fund enjoys the Section 13D Scheme will be exempted from Singapore tax in the hand of its investors.

Singapore currently does not impose tax on capital gains. However, there are no specific laws or regulations which deal with the characterisation of gains. In general, gains from the disposal or redemption of the Units may be construed to be of an income nature and subject to Singapore income tax if they arise from activities which the IRAS regards as the carrying on of a trade or business in Singapore.

23.3 Financial amount payable by non-qualifying investors in the Sub-Fund

Even though the Sub-Fund may be exempt from tax as outlined above, investors should note that under certain circumstances, they may be obliged to pay a "financial amount" to the IRAS if they are not "qualifying investors".

Generally, investors who do not fall under the following will be considered as "non-qualifying":

- (i) An individual investor;
- (ii) A bona fide non-resident non-individual investor ¹⁸ (excluding a permanent establishment in Singapore) that:
 - (a) does not have a permanent establishment in Singapore (other than a fund manager) and does not carry on a business in Singapore; or
 - (b) carries on an operation in Singapore through a permanent establishment in Singapore but does not use funds from its operation in Singapore to invest in the qualifying fund;
- (iii) Designated person¹⁹;
- (iv) A section 13O or section 13OA fund which, at all times during the basis period for the year of assessment, satisfies the conditions to claim tax exemption for that period under S13O or S13OA scheme respectively;
- (v) A section 13U fund which, at all times during the basis period for the year of assessment, satisfies the conditions to claim tax exemption for that period under S13U scheme;

¹⁸ A bona fide non-resident non-individual investor is one which carries out substantial business activities for genuine commercial reasons and has not as its sole purpose the avoidance or reduction of tax.

¹⁹ "Designated Person" as defined in the Income Tax (Exemption of Income of Prescribed Persons Arising from Funds Managed by Fund Manager in Singapore) Regulations 2010.

- (vi) Unit trust in its first two years of assessment from the date of the unit trust's constitution, if it is constituted on or after 1 April 2019 and is a retail unit trust, i.e. a unit trust which is included under the CPF Investment Scheme or which meets all of the following conditions:
 - (a) the unit trust is a collective investment scheme that is authorised under section 286 of the Securities and Futures Act and the units of which are open to public for subscription;
 - (b) the unit trust is not a real estate investment trust or a property trust that invests directly in Singapore immovable properties; and
 - (c) the trustee of the unit trust is tax resident in Singapore;
- (vii) A section 13D trust or unit trust which, at all times during the basis period for the year of assessment satisfied the conditions to claim tax exemption for that period under S13D; and
- (viii) An investor other than one listed in (i) to (vii):
 - (a) where the S13D fund has less than 10 investors and such an investor, alone or with his associates, beneficially owns not more than 30% of the total value of issued securities of the S13D fund (being a company) or the total value of the S13D fund (being a trust fund), as the case may be; or
 - (b) where the S13D fund has 10 or more investors and such an investor, alone or with his associates, beneficially owns not more than 50% of the total value of the issued securities of the S13D fund (being a company) or the total value of the S13D fund (being a trust fund), as the case may be.

For the purpose of determining whether an investor of a S13D fund is an associate of another investor of the fund, the two investors shall be deemed to be associates of each other if:

- (i) at least 25% of the total value of the issued securities in one investor is beneficially owned, directly or indirectly, by the other; or
- (ii) at least 25% of the total value of the issued securities in each of the two investors is beneficially owned, directly or indirectly, by a third party.

You should note that you are solely responsible for computing the aggregate unitholdings of you and your associates to determine if you would be a non-qualifying investor. Non-qualifying investors are obliged to declare and pay the financial amount in their respective income tax returns for the relevant year of assessment.

23.4 Taxation of the Sub-Fund under Section 13U status and Holders in Singapore

In the future, the Sub-Fund intends to apply for tax exemption under Section 13U of the ITA once it is able to meet the relevant conditions²⁰ (the “**Section 13U Scheme**”), whereupon the Section 13D Scheme tax exemption will cease to apply.

Trust level

Specified Income derived from Designated Investments derived by the Sub-Fund will be exempt from tax in Singapore, subject to the relevant conditions under the Section 13U Scheme being met.

The terms “specified income” and “designated investments” have the same meanings as the Section 13D Scheme.

We will endeavour to conduct the affairs of the Sub-Fund in such a way that the Sub-Fund will satisfy the qualifying conditions under the Section 13U Scheme for the life of the Sub-Fund. Notwithstanding the foregoing, there is no assurance that we will, on an on-going basis, be able to ensure that the Sub-Fund will always meet all the qualifying conditions for the Section 13U Scheme. If the Sub-Fund is disqualified from the Section 13U Scheme, it may be exposed to Singapore tax on its income and gains, wholly or partially as the case may be, at the prevailing corporate tax rate. The Sub-Fund can however, enjoy the tax exemption under the Section 13U Scheme in any subsequent period if it is able to satisfy the specified conditions in that subsequent period.

23.5 Holders' level

Distributions paid by the Sub-Fund out of income derived during the periods that the Sub-Fund enjoys the Section 13U Scheme will be exempted from Singapore tax in the hand of its investors.

Singapore currently does not impose tax on capital gains. However, there are no specific laws or regulations which deal with the characterisation of gains. In general, gains from the disposal or redemption of the Units may be construed to be of an income nature and subject to Singapore income tax if they arise from activities which the IRAS regards as the carrying on of a trade or business in Singapore. Such gains on disposal or redemption of Units are liable to Singapore income tax under section 10(1)(a) of the ITA. Where Units were purchased with the intention or purpose of making a profit by disposal or redemption and not with the intention to be held for long-term investment purposes, any gains on disposal or redemption of Units could be construed as "gains or profits of an income nature" liable to tax under Section 10(1)(g) of the ITA.

In addition, Holders of Units who apply or who are required to apply Singapore Financial Reporting Standard 109 – Financial Instruments (“**FRS 109**”) or its equivalents under the

²⁰ The complete details of the conditions under the Section 13U Scheme can be found in Section 13U of the Singapore Income Tax Act 1947 and Income Tax (Exemption of Income Arising from Funds Managed in Singapore by Fund Manager) Regulations 2010 which has been updated in the MAS Circular FDD Cir 10/2024 Tax Incentive Scheme for Funds dated 1 October 2024.

Singapore Financial Reporting Standard International (“**SFRS(I)**”) for Singapore income tax purposes may be required to recognise gains or losses (not being gains or losses in the nature of capital) on Units, irrespective of disposal.

Holders and prospective Holders of the Sub-Fund should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of Units arising from the adoption of FRS 109 or its equivalents under the SFRS(I).

Section 10L

Under section 10L of the ITA, gains from the sale of movable or immovable property situated outside Singapore (collectively “**foreign assets**”) received in Singapore by an entity of a relevant group will be treated as income chargeable to Singapore income tax, subject to certain exceptions (e.g. when the entity meets certain economic substance requirements). This section applies to gains from the sale or disposal of foreign assets that occurs on or after 1 January 2024 and where the gains would not otherwise be treated as income or if they are exempt from tax under the ITA.

In the MAS circular titled “Guidance for funds on the tax treatment of gains or losses from the sale of foreign assets” (Circular No.: FDD Cir 04/2024) dated 4 April 2024, the MAS has clarified that a 13D or 13U fund that meets the conditions of the tax incentive schemes under section 13D and section 13U of the ITA respectively, and all the following conditions below will be regarded as having met the economic substance requirement:

- (a) the investment activity of the fund has been outsourced to a Singapore-based fund manager (“**SG FM**”);
- (b) the investment strategy has been documented;
- (c) the investment service agreement sets out:
 - (i) the duties and responsibilities of the SG FM;
 - (ii) the provision for the termination of services of the SG FM;
- (d) the SG FM has set aside dedicated resources to perform its functions and responsibilities based on the investment service agreement; and
- (e) the SG FM charges an arm’s length fee for its services rendered.

In addition to the above conditions, a 13U fund will also be required to submit its annual declaration to the MAS.

Annex 1

UOBAM PING AN FTSE ASEAN DIVIDEND INDEX ETF

This Annex sets out the details of UOBAM Ping An FTSE ASEAN Dividend Index ETF, a sub-fund of the United ETF Series 2.

The Sub-Fund was listed on the SGX-ST on 29 January 2026 as an exchange-traded fund and trades in Singapore dollars (primary currency) and United States dollars (secondary currency). The SGX counter name of the Units traded in SGD is “UOBAM PA FT ASEAN DV S\$” and the SGX stock code of the Units traded in SGD is UPD. The SGX counter name of the Units traded in USD is “UOBAM PA FT ASEAN DV US\$” and the SGX stock code of the Units traded in USD is UPU.

1. Structure of the Sub-Fund

1.1 Structure

The Sub-Fund is a Singapore-dollar denominated open-ended unit trust established under the umbrella structure of the Fund which is constituted in Singapore.

The Managers have the discretion to establish different classes of Units (each a “**Class**” and collectively the “**Classes**”) from time to time. The Class(es) currently established within the Sub-Fund is as follows:

- SGD Class Units (denominated in SGD)

1.2 Base currency

The base currency of the Sub-Fund is SGD.

1.3 Dual Currency Trading on SGX-ST

The SGD Class Units trade in different currency denominations on the SGX-ST, i.e. Singapore dollar (SGD) and United States dollar (USD). Investors of the SGD Class Units can buy and/or sell Units in SGD and/or USD, regardless of the currency in which it was first bought and/or sold.

SGD Class Units

Currency denomination available for trading	Trading Currency	Trading/Counter Name	Stock Code
Primary Currency (SGD)	S\$	UOBAM PA FT ASEAN DV S\$	UPD
Secondary Currency (USD)	USD	UOBAM PA FT ASEAN DV US\$	UPU

Unit holdings of the same Class will be consolidated in investors' CDP accounts so that the total number of Units of such Class can be viewed at a glance, for example, 1,000 SGD-

denominated Units and 2,000 USD-denominated Units will be reflected as 3,000 Units in an investor's CDP account.

In most cases, the traded prices in the two currency counters should theoretically be equivalent or close to each other, taking into consideration the prevailing foreign exchange rate. However, in certain cases, due to market supply and demand factors in the respective counters and the market activity of the market makers, the price relationship and difference between the two counters might not necessarily be the foreign exchange rate between both counters.

Investors should refer to the SGX website at www.sgx.com for more information on dual currency trading.

2. Index Provider and the Index

The Index Provider is FTSE International Limited ("**FTSE**"). The Index Provider is not related to the Managers. An Index licensing agreement is signed between FTSE and the Managers.

FTSE has authorized the Managers to use the Index for various purposes as stated in and subject to the conditions of the Index licensing agreement entered into between FTSE and the Managers, including using the Index as the performance benchmark for the Sub-Fund.

The Sub-Fund is not in any way sponsored, endorsed, sold or promoted by FTSE and FTSE makes no warranty or representation whatsoever, expressly or impliedly, either as to the results to be obtained from the use of the FTSE ASEAN ex REITs Target Dividend Index and/or the figure at which the FTSE ASEAN ex REITs Target Dividend Index stands at any particular time on any particular day or otherwise. The FTSE ASEAN ex REITs Target Dividend Index is administered, calculated and published by FTSE. FTSE shall not be liable (whether in negligence or otherwise) to any person for any error in the Sub-Fund and shall not be under any obligation to advise any person of any error therein.

FTSE ASEAN ex REITs Target Dividend Index (the "**Index**")

The Index is compiled and calculated by FTSE.

Index Construction

The Index is reviewed semi-annually and has a basket size of 57 stocks.

You should refer to Annex 1A for a list of all of the constituent stocks in the Index as at 17 November 2025. You should refer to Annex 1B for more information on the Index, including details on obtaining published figures for the value of the Index.

Calculation Times

On any Business Day, the Index is calculated on an end-of-day basis and displayed up to eight decimal points.

3. Investment Objective, Focus and Approach of the Sub-Fund

3.1 Investment Objective

The investment objective of the Sub-Fund is to provide investment results that, before fees, costs and expenses (including any taxes and withholding taxes), closely correspond to the performance of the FTSE ASEAN ex REITs Target Dividend Index.

You should note that there is no guarantee that the Sub-Fund's investment objective will be achieved.

3.2 Investment Focus and Approach

The Sub-Fund invests in securities which are for the time being constituent securities of the Index ("**Index Securities**").

We currently adopt a full replication strategy in respect of the Sub-Fund whereby all, or substantially all, of the Sub-Fund's assets are invested in the Index Securities in substantially the same weightings as reflected in the FTSE ASEAN ex REITs Target Dividend Index. The Index is compiled and calculated by FTSE and comprises dividend-paying and liquid stocks of ASEAN companies from Singapore, Malaysia, Indonesia, Thailand and Philippines, excluding REITs.

We may in our absolute discretion also invest the Sub-Fund's assets in non-Index Securities in order to achieve the Sub-Fund's investment objective.

At any time, the Sub-Fund's investments will consist of as many of the Index Securities as is practicable. We will review the investment portfolio of the Sub-Fund regularly. We will adjust or rebalance the investment portfolio, when necessary, to reflect changes in the composition of, or to the weightings of securities in, the Index or to be more in line with the performance and characteristics of the Index. This is done with a view to minimising the Sub-Fund's tracking error (i.e. the difference between the performance of the Sub-Fund's investment portfolio and that of the Index). Such adjustment or rebalancing may be in the form of investments in non-Index Securities.

In addition, given that securities may be and are added to or removed from the Index from time to time, we may sell the Index Securities or purchase securities that are not yet represented in the Index in anticipation of their removal from or addition to the Index.

Various circumstances may make it impossible or impractical for the Sub-Fund to purchase each Index Security in the same weighting of such security as reflected in the Index and the Sub-Fund may not own certain Index Securities at any particular time.

In those circumstances, we may employ a combination of one or more investment techniques in seeking to closely track the Index as may be permitted under the Code or as may be permitted by the Authority. This may encompass the investment in non-Index Securities or the use of derivatives such as stock futures contracts. In those circumstances, if an optimisation and/or sampling approach is used where certain investments of the Sub-Fund are non-Index Securities, we may only use such approaches if the resultant fund characteristics closely match or correspond to the characteristics of the Index (unless otherwise permitted under the

Code or by the Authority).

The Sub-Fund may hold part of its assets in liquid investments or cash for liquidity purposes.

The Sub-Fund does not currently intend to invest in warrants, commodities, unlisted securities and precious metals. You should note however that the Sub-Fund may use and invest in derivatives for hedging and/or efficient portfolio management. You should refer to paragraphs 7.7 and 9.2.6 of the Prospectus for further information.

3.3 Excluded Investment Products

The Units of the Sub-Fund are Excluded Investment Products and notwithstanding anything contained in this Prospectus, the Sub-Fund will not invest in any product or engage in any transaction which may cause the Units of the Sub-Fund not to be regarded as Excluded Investment Products.

4. Distribution Policy

SGD Class Units

We have the sole discretion to determine whether to make any distributions for the Sub-Fund. The current distribution policy is to make semi-annual distributions around March and September each year, at such date and of such amount as we may from time to time determine (or at such other frequency and/or date(s) as we may from time to time determine). If we determine at our discretion, to make any distributions, such distributions may be made out of income, capital gains, and/or capital in accordance with the provisions of the Deed. The declaration or payment of distributions may have the effect of lowering the NAV of the Sub-Fund or Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may result in reduced future returns. On a distribution, the Trustee, in accordance with our instructions, will allocate the amounts available for distribution between Holders and will pay such amounts to Holders. Amounts to be distributed in respect of each Unit shall be rounded down to the nearest S\$0.01 per Unit. Subject to the Deed, the Trustee shall cause distributions payable to a Holder which remains unclaimed by the Holder for more than six (6) years to be paid into court after deducting all fees, costs and expenses incurred in relation to such payment from the sum thereof provided that if the said sum is insufficient to meet all such fees, costs and expenses, the Trustee shall be entitled to have recourse to the Deposited Property.

The Index is compiled and calculated by FTSE International Limited and comprises dividend-paying and liquid stocks of ASEAN companies from Singapore, Malaysia, Indonesia, Thailand and Philippines, excluding REITs. The Index does not comprise of unlisted securities.

The Index aims to achieve a 100% dividend yield uplift target over the FTSE ASEAN Index after taking into account such inclusionary criteria and exclusionary criteria described below.

The Index aims to generate returns by utilizing historical dividend yield as a key variable in stock selection and weighting. The Index allocates a higher weighting to higher yielding stocks to generate higher income returns. During rebalancing, a shift in weights of Index Securities from lower yielding stocks to higher yielding stocks aims to lock in capital gains.

2.1 **Eligibility Criteria**

2.1.1 **Universe**

The securities which are eligible to be included in the Index are the constituents of the FTSE ASEAN Index (the “**Universe Index**”), excluding REITs (such securities, the “**Universe Index Securities**”). The FTSE ASEAN Index is a market-capitalisation weighted index representing ASEAN companies from Singapore, Malaysia, Indonesia, Thailand and Philippines.

Companies classified under the ICB Sector of 351020 Mortgage Real Estate Investment Trusts or 351020 Real Estate Investment Trusts will not be considered eligible for inclusion.

2.1.2 **Screens**

The Universe Index is part of the FTSE Global Equity Index Series (the “**FTSE GEIS**”) and reviewed as part of the Asia Pacific ex China ex Japan region.

Liquidity screening and market capitalisation requirements are applied to the Universe Index.

(i) Liquidity criteria

New inclusions to the basket of Universe Index Securities must possess a monthly median turnover of at least 0.05% of their shares in issue during 10 out of the 12 preceding months prior to an Index Review Date (as defined below).

Existing Universe Index Securities must possess a monthly median turnover of at least 0.04% of their shares in issue during 10 out of the 12 preceding months prior to an Index Review Date.

(ii) Market Capitalisation requirements

The Universe Index Securities must meet the following market capitalisation requirements:

- A new Universe Index Security will only be included if it moves above the top 86th percentile of the Asia Pacific ex China ex Japan region.

2.2. Inclusionary and exclusionary criteria

(i) Dividend Trap Filter

A Dividend Trap Filter is applied to exclude stocks with a dividend yield robust z score* that is greater than 3 and a momentum** percentile that is negative and falls in the bottom fifth percentile for momentum score.

* Dividend yield robust z score, in relation to an Index Security, is calculated at each Index Review Date (as defined below) in accordance with the following formula:

$$RZ_{Y,i} = \frac{Y_i - Median_Y}{Robust \sigma_Y}$$

where:

Y_i = yield of the i^{th} stock.

$Median_Y$ = median dividend yield of the respective eligible universe.

$Robust \sigma_Y$ = robust standard deviation of dividend yield within the eligible universe
= (75th percentile of yield - 25th percentile of yield)/1.35.

** Momentum, in relation to an Index Security, is defined as the cumulative total return in local currency, calculated over the period that starts 12 months prior to the review effective date and ends the Monday following the third Friday of the previous month (before the review effective date). A full history is required to calculate momentum.

(ii) Minimum Dividend Yield

An Index Security must have a minimum dividend yield*** that is greater than 0%.

*** Dividend Yield means the quotient obtained after dividing the dividend per share by the share price of an Index Security. Dividend Yield is calculated based on a 12-month trailing dividend yield, excluding special dividends. The basis period is a period of 12-months ending on the last business day of the month prior to the review month.

2.3. Portfolio Selection

There is no fixed number of stocks that may be included in the Index.

There is no limit on the sector and industry weight of Index Securities nor any limit on the country exposure of the Index.

The minimum weight (out of all Index Securities) for each stock is 0.25% and is capped at a maximum of 10%.

Stocks are weighted using a tilting methodology to achieve the targeted exposure of 100% dividend yield uplift over the FTSE ASEAN Index. The methodology applied is the FTSE target exposure methodology. The weighting of each Index Security is calculated under the FTSE target exposure methodology as follows: -

$$w_i = \frac{v_i}{\sum_j v_j}$$

where $v_i = w'_i \times \prod_{j=1}^K F_{i,j} \times C_i \times I_i \times \Phi_i \times \Psi_i$

w'_i is the market capitalisation weight of stock i in the underlying eligible universe.

K is the number factor tilts respectively.

$F_{i,j}$ is the j^{th} factor tilt applied to stock i . Greater weight will be assigned to the stocks with higher dividend yields and lower weight will be assigned to the stocks with lower dividend yields.

C_i and I_i are country and industrial ICB tilt respectively.

Φ_i is the maximum stock capacity/maximum weight tilt.

Ψ_i is the maximum turnover tilt applied to stock i .

For details of FTSE target exposure methodology, see [FTSE Global Factor Index Series](#).

2.4. Periodic review and rebalancing

At each Index Review Date (as defined below) a two-way turnover is capped at 40%. The two-way turnover of an index refers to the sum of absolute changes in stock weights difference before and after index review.

3. Periodic Review

3.1 Review Period

The Index is reviewed semi-annually in March and September (each date, an “**Index Review Date**”), based on trading data as at the close of the Wednesday before the first Friday of the review month, and fundamental data from the close of business on the last business day of the month prior to the review month.

3.2 Implementation Date

Periodic reviews are implemented after the close of business on the third Friday of the review month.
